

Heliconius-Antirrhinum Meeting 18-19th October 2012

The meeting will start at 10am on Thursday 18th October and will finish late afternoon on Friday 19th October. It will be hosted in the Chris Lamb Training and Development Suite at the John Innes Centre, Norwich, NR4 7UH, UK.

Please be aware that there are only a limited number of places (30 in total) and so we may need to impose a limit on the number of participants from any one group.

The goal of this meeting is to initiate a dialogue between the *Heliconius* and *Antirrhinum* communities, enabling us to share approaches, concerns and, hopefully, solutions relevant to our shared research themes.

If you are interested in attending, please return this completed form to Annabel Whibley (whibley@mnhn.fr), ideally before the end of July.

Name:

E-mail address:

Please indicate to which, if any, of the proposed sessions you would be prepared to contribute a short (15 min) talk. Equally, please also specify here any topics you would especially like to see covered during the meeting.

Proposed Sessions	Provisional Title
Describing Phenotypes	
Measuring Selection	
Genomic Signatures	
Population Analyses	
Evo-devo	
Other (please specify)
