Rhinoplasty & Facial Plastics
20th – 21st November 2017

Day 1 – Monday 20th November 2017

08.50  Registration and coffee

09.00  Introduction and Anatomical dissection of the external nasal valve  
       Peter Andrews (Ear Institute)

09.30  Rhinoplasty Assessment  
       Alam Hannan (Ear Institute)

10.00  Cadaver dissection of the external nasal valve – Temporal Bone Room  
       Peter Andrews / Alam Hannan / Hesham Saleh / Tim Woolford (RNTNEH)

11.30  Coffee break  
       Ear Institute

11.45  Internal Nasal Valve and Reconstruction  
       Hesham Saleh (Ear Institute)

12.15  Cadaver dissection of the internal nasal valve and reconstruction techniques – Temporal Bone Room  
       Peter Andrews / Alam Hannan / Hesham Saleh / Tim Woolford (RNTNEH)

1.30   Lunch  
       Ear institute

14.30  Septoplasty  
       Sam Jayaraj (Ear Institute)

15.00  Guest lecture – Rhinoplasty and septal perforation repair  
       Tim Woolford (Ear Institute)

16.00  Coffee break

16.15  Cadaver dissection – Suture techniques, spreader grafts and extension spreader grafts – Temporal Bone Room  
       Peter Andrews / Alam Hannan / Hesham Saleh / Tim Woolford (RNTNEH)

18.00  Evening reception  
       Atrium, Ear Institute
Rhinoplasty & Facial Plastics
20th – 21st November 2017

Day 2 – Tuesday 21st November 2017

09.00  Anatomy of the face aesthetic / Facial reanimation and reconstruction principles  
        Callum Faris

09.30  Anatomy of the eye and brow  
        Prem Randhawa

10.00  Cadaver dissection of the face, eye and brow, lateral canthoplasty techniques, brow and face lifts – Temporal Bone Room  
        Prem Randhawa / Peter Andrews / Ivor Kwame / Romana Kuchai

11.15  Coffee break  
        Ear Institute

11.45  Cadaver dissection – Face lift techniques with static suspension techniques and facial reanimation techniques; dynamic temporalis muscle transfer; upper lid weighting techniques – Temporal Bone Room  
        Prem Randhawa / Peter Andrews / Ivor Kwame / Romana Kuchai

13.30  Lunch  
        Ear Institute

14.15  Z plasty, bi-lobed and rhomboid flap design  
        John Watkinson
        Ear Institute

14.45  Pinnaplasty  
        Alam Hannan
        Ear Institute

15.15  Cadaver dissection – Temporal Bone Room  
        Alam Hannan / Prem Randhawa / Melissa Bentley / Romana Kuchai / John Watkinson

16.30  Closing Discussion  
        Ear Institute
