Office Risk Assessment

Overview
Assessing the office environment for risk involves a careful examination of anything that could cause harm and a decision about whether there are enough precautions already in place. The first step in developing the skills needed to carry out a risk assessment is to understand the principles of risk assessment.

Aim
By the end of this course you will have developed the necessary skills to assess the risks associated with the office environment using the principles of risk assessment.

Scope
During this course, you will learn to:

- Identify office hazards
- Identify the people who might be affected
- Evaluate the risks and identify control measures

For
Staff who are responsible for the supervision or management of safety in an office environment.

Prerequisite material
Participants must complete the Moodle e-learning course the ‘Principles of Risk Assessment’ before attending this course. Information about enrolling onto the module will be provided when booking your place on this course.

A record of training will be verified only when both the the ‘Principles of Risk Assessment’ e-learning module and attendance on the course are completed.

How to book
