The purpose of this annual course is to provide an update on current practice in paediatric respiratory medicine on an everyday basis. The programme and range of issues covered will be suitable for everyone concerned with paediatric respiratory medicine. The course will be of interest to all paediatricians, specialist trainees and nurse practitioners in respiratory paediatrics.

Topics for 2016:
- Who needs a sleep study?
- Allergy
- Investigating lung imaging: how good are you?
- Haemoptysis in Children
- 3 Challenging Cases
- Difficult asthma
- Cystic Fibrosis: what’s new?
- Gastro-oesophageal reflux and the lung
- The 3 most important recent respiratory papers

Fees:
- Early Bird: £175 (until 06/10/2016)
- Standard: £225 (from 07/10/2016)
