Key Advances in Clinical Trials

International Clinical Trials Day
Friday 19th May 2017
Welcome

Professor Max Parmar
Director
Institute of Clinical Trials and Methodology
Highlights in the last 12 months
Education: MSc in Clinical Trials

- 27 students from Italy, Poland, Colombia, Malaysia, Zimbabwe, India, Greece, Lebanon, Pakistan, Switzerland, Sweden, Poland, Ethiopia, UK, and the US

- 75 members of staff contribute to deliver and support the course
ICTM Mission

• Improve local, national and global health by conducting clinical trials and other well-designed studies

• Develop the current and next generation of trialists, particularly by embedding the education experience into research

• Develop the methodological expertise and capacity to design, conduct and analyse from the first in man to large-scale randomised trials

• Develop a strategic approach to interactions with Industry

• Contribute to national and international policy developments through a single ICTM voice
