This is a quick configuration guide for connecting your Microsoft Windows 10 device to the eduroam wireless network.

Note: if you are not from UCL you will need to contact your home institution for assistance, more details can be found at the following address: www.ucl.ac.uk/wireless

1. Select the icon to access the internet from the task bar in the lower-right. You will see an icon that will look like one of the images below.

   Image 1 – Wired/wireless internet access connection.

2. Select eduroam from the list of available Networks and select **Connect (see image below)**.

   Image 2 – connect to eduroam

3. Set user name to your UCL user ID and the enter your UCL password. Your UCL user ID must be appended with @ucl.ac.uk (e.g. zcxzano@ucl.ac.uk).

   Image 3 – enter your credentials

4. You will be prompted to **Continue connecting**. Select **Connect**.

   **Wi-Fi**

   Image 4 – continue connecting

5. If successfully authenticated the status will change to **Connected** (may briefly display **Limited**). You will now be connected to the eduroam service.

   **Wi-Fi**

   Image 5 – successfully added network

   Your credentials should now be stored and you will only be prompted again when your password is changed.

**Having trouble connecting?**

For further help and assistance, please go to eduroam web page: www.ucl.ac.uk/isd/wireless
