Heart and blood vessels – A

A 1	Pericarditis. Inflammation of the pericardium.	Hôpital de la Charité, Paris, 12 th Nov 1826	
A 2	Ossificaton of the valves of heart	Hôpital de la Charité, Paris, Novr. 1828	
A 3	Ulceration & aneurism of aorta	Hôpital de la Charité, Paris, Novr. 1828	
A 4	Coagula in right ventricle, containing pus	Hôpital de la Charité, Paris, Augt. 1828	
A 5	Polypus of the heart	Hôtel Dieu de Paris, 14 th Feby. 1827	
A 6	Fibrinous polypi filling the greater part of the right ventricle and auricle	Hôpital de la Charité, Paris, Oct 1828	
A 7	Hypertrophy & dilatation	Hôpital de la Charité, Paris, Sep 1828	Uncoloured
A 8	Heart: hypertrophy & dilatation	Hôpital de la Charité, Paris, Jany. 1828	
A 9	Cyst in walls of left ventricle	Hôpital de la Charité, Paris, Decr. 1828	
A 10	Pericarditis	Hôpital de St. Louis, Paris, Jany 1829	
A 11	Pericarditis in an infant of 8 or 10 days old	Hôpital des Enfants Trouvés, Paris, 11 th May 1828	
A 12	Abscess at the apex of the heart	Hôpital de la Pitié, Paris, March 1829	
A 13	Hypertrophy of left ventricle. Enlarged coronary artery	Hôpital de la Charité, Paris, Feby 1829	
A 14	Vena porta obstructed by coagulated blood and fibrine, a, and also the splenic vein, b.	Hôpital de la Charité, Paris, 1827	Partly uncol.
A 15	Aneurysm of ascending aorta	Hôpital de la Charité, Paris, [n.d.]	
A 17	Vena saphena major, femoral & iliac vein distended with coagulated lymph	Hôpital de la Charité, Paris, Augt 1827	Outsize
A 18	Gangrene of the ancle joint. Inflammation of the veins.	Hôpital de la Charité, Paris, Feby 1828	
A 19	Aneurysm of arch of aorta. Perforation of oesophagus	Hôtel Dieu, Paris [n.d.]	
A 20	Contraction of aorta	Hôpital de la Charité, Paris, 1827	
A 22	Obliteration of left iliac vein – cancer of surrounding parts	Hôpital de la Charité, Paris, August 1828	
A 23	Ulceration & perforation of vena saphena interna followed by fatal haemorrhage	Paris 1829

A 285	Contraction of both auriculo-ventricular orifices. Hypertrophy of both auricles	Hôpital de la Charité, Paris, Sepr 1829	
A 286	Atrophy of heart & hypertrophy of left ventricle. Right ventricle covered with fat, and a fale membrane	Hôpital de la Charité, Paris, June 1829	
A 287	Pericarditis: hypertrophy of left ventricle	Hôpital de la Charité, Paris, May 1829	Partly uncol.
A 288	Bone in pericardial adhesions	Hôpital de la Charité, Paris, May 1829	
A 289	Hypertrophy of right ventricle; contraction of pulmonary semi lunar valves	Paris 1829	numbered 789 on verso
A 290	Perforation of semi lunar valves	Hôpital de la Charité, Paris, Augt 1829	
A 291	Scirrhus or cancer – thickening of internal membrane of left ventricle. Adhesion of pericardium to the heart.	Hôpital de la Charité, Paris, Juin 1829	numbered 221 on verso
A 292	Pus & coagula in femoral vein and branches after amputation	Hôpital de la Charité, Paris, April 1829	
A 293	Compression of vena cava abd[ominalis] by enlarged glands [from a case of phthisis]	Hôpital de la Charité, Paris, Sept 1829	
A 319	Gangrene of the toes of a woman 70 years of age	Hôpital de la Charité, Paris, Augt 1829	
A 377	Pericariditis. Dilatation of ventricles, with slight hypertrophy	Hôpital de la Pitié, Paris, Octr 1829	numbered 227 on verso
A 378	Obliteration of vena cava interior & of a portion of vena portae	Hôpital de la Charité, Paris, Octr. 1829	
A 379 a, b	Symptoms of obliteration of inferior vena cava & part of vena portae	Hôpital de la Charité, Paris, Oct 1829	in 2 parts
A 380	Mitral constriction. Fibro-cartilaginous transformation. Adhesion of the mitral valve, a great contraction of the auriculo-ventricular opening of the same side	Hôpital de la Salpêtrière, Paris, Jany 1830	
A 381	Mitral constriction. Fibro-cartilaginous and osseous transformation of the mitral valves. Contraction of the auriculo-ventricular opening – Hypertrophy of both the ventricles and auricles	Hôpital de la Charité, Paris, Jany 1830	uncoloured
A 382	Aneurysm of arch of aorta	Hôpital de la Charité, Paris, 1829
