Oliver Wilson, Second Year, Civil Engineering BEng [now Engineering (Civil) BEng]

I'm part of the UCLU Elite Athletes programme. It aims to provide greater support and recognition for those dedicated few that are trying to pursue a sporting career alongside their studies. This has provided me with extra support as I continue to develop myself as a high level competitive swimmer. Since the age of 10 I've been training many times a week – my most recent achievement is making the semi-finals of the Olympic swimming trials at the new aquatic centre in my best event – a truly elating yet humbling experience that represented the culmination of my efforts over the years.
