

# Matteo Sammartino

## Personal Information

Born: Catania, Italy, 10/11/1984  
Citizenship: Italian  
Email: [m.sammartino@ucl.ac.uk](mailto:m.sammartino@ucl.ac.uk)  
Job title: Research Associate and Teaching Fellow  
Affiliation: University College London  
Webpage: <http://matteosammartino.wordpress.com>  
[Google Scholar Page](#)      [DBLP page](#)

## Language

Italian native language  
English fluent

## Research Interests

- Formal Semantics of programming languages
- Algebraic and coalgebraic specification
- Process calculi and Petri nets
- Infinite-state models of computation
- Modal logic and model-checking
- Automata learning

## Education

- 1/2010- **PhD in Computer Science**, *University of Pisa*, Italy.  
12/2013 *Thesis title*: A Network-Aware Process Calculus for Global Computing and its Categorical Framework  
*Supervisor*: Prof. Ugo Montanari  
*Topic*: concurrent models of computations over networks with dynamic topology
- 5/2009- **Scholarship in the EU FP6 Project SENSORIA**, *University of Pisa*, Italy.  
12/2009 *Topic*: Semantics of systems with dynamic allocation and de-allocation of resources
- 1/2007- **Master's degree in Computer Science**, *University of Pisa*, Italy.  
4/2009 *Thesis title*: Saturated Transition Systems for Presheaf Models  
*Supervisor*: Prof. Ugo Montanari  
*Graduation mark*: 110/110 cum laude
- 9/2003- **Bachelor's degree in Computer Science**, *University of Pisa*, Italy.  
12/2006 *Thesis Title*: Un approccio innovativo ai problemi di flusso multicommodity basato sulla lagrangiana aumentata (An innovative approach to multicommodity flow problems based on augmented lagrangian)  
*Supervisor*: Prof. Antonio Frangioni  
*Graduation mark*: 110/110 cum laude

## Employment history

- 11/2017- present **Research Associate and Teaching Fellow**, *Computer Science Department, UCL, UK.*
- 1/2016- 10/2017 **Research Associate**, *Computer Science Department, UCL, UK.*
- 1/2015- 12/2015 **Postdoc researcher**, *Institute for Computing and Information Sciences, Radboud University, Nijmegen, The Netherlands.*  
Funded by the NWO project *Practical Coinduction*
- 1/2013 - 12/2014 **Research fellow**, *Computer Science Department, University of Pisa, Italy.*  
Funded by the EU FP7 Project *ASCENS*  
*Topic: Resource-based process calculi for global computing*

## Visiting positions

- 10/2016- 11/2016 **Visiting researcher**, *Simons Institute for the Theory of Computing, Berkeley, CA, USA.*  
Participant in the program *Logical Structures in Computation*

## Teaching Experience

### Courses

- 2017 **Course Leader**, *Computer Science Department, UCL, London, UK.*  
*Course: Design and Professional Skills*
- 2015 **Instructor**, *Institute for Computing and Information Sciences, Radboud University, Nijmegen, The Netherlands.*  
*Course: Algorithms and Data Structures*

### Student supervision

- 2/2017- 5/2017 **Maverick Chardet**, *Master's student, ENS Lyon, M2 internship.*
- 9/2016- present **Gerco van Heerdt**, *Ph.D. student, Computer Science Department, UCL, UK.*

## Additional education and training

- 5/2017 **"Introduction to Research Student Supervision" course**, *UCL.*  
The course provides an introduction to regulations, procedures, skills development, and other aspects of Doctoral Students supervision at UCL.

## Grants and awards

- 2018 **Winner of £85,226 grant for a PhD studentship.**  
*Funder: Research Institute in Verified Trustworthy Software Systems*
- 2010 **Awarded PhD scholarship.**

## Participation in Research Projects

- Dutch NWO project Practical Coinduction
- EU FP7 Project ASCENS
- EU FP6 Project SENSORIA
- Italian MIUR Project CINA (PRIN 2010)
- Italian MIUR Project IPODS (PRIN 2008)

## Invitation to Conferences

3/2016 **Bellairs Workshop**, *McGill University*, Barbados.

## International collaborations

- Elvira Albert, Complutense University of Madrid, Spain
- Albert Rubio, Universitat Politècnica de Catalunya, Spain
- Byron Cook and Paul Subotic, Amazon UK
- Ugo Montanari, Fabio Gadducci, Roberto Bruni and Giacomina Valentina Monreale, University of Pisa, Italy
- Vincenzo Ciancia, ISTI-CNR Pisa, Italy
- Joshua Moerman, Radboud University, The Netherlands
- Bartek Klin and Michał Szywnowski, Warsaw University, Poland
- Nicklas Hoch, Volkswagen Corporate Research Group, Germany
- Alain Tchekam, New York University, United Arab Emirates

## Talks

### Invited

2017 **Learning Nominal Automata**, *RISE Seminar Cycle*, IST Austria, Vienna, Austria.

### International conferences and workshops

- 2017 **CALF: Categorical Automata Learning Framework.**, *LiVe (Learning in Verification)*, Uppsala, Sweden.
- 2017 **Learning Nominal Automata.**, *POPL (Principles of Programming Languages)*, Paris, France.
- 2015 **Dynamic Programming on Nominal Graphs.**, *GaM (Graph as Models)*, London, UK.
- 2014 **A Class of Automata for the Verification of Infinite, Resource-Allocating Behaviours.**, *TCG (Trustworthy Global Computing)*, Rome, Italy.
- 2012 **Network-Conscious  $\pi$ -calculus: a Concurrent Semantics.**, *MFPS (Mathematical Foundations of Programming Semantics)*, Bath, UK.

### Seminars

- 2017 **CALF: Categorical Automata Learning Framework**, *6th South of England Regional Programming Language Seminar (S-REPLS)*, UCL, UK.
- 2016 **Learning Nominal Automata**, *Logic Lounge Cycle*, Simons Institute for the Theory of Computing, University of California, Berkeley, USA.
- 2015 **A Coalgebraic Semantics for Causality in Petri Nets**, *Brouwer Seminar Cycle*, Radboud University, Nijmegen, The Netherlands.

2014 **Presheaf Models for Nominal Calculi.**

Delivered at: ENS Lyon, France; Aarhus University, Denmark; Radboud University, Nijmegen, The Netherlands, in the *Brouwer Seminar Cycle*

2012-2014 **Seminars at meetings of research projects.**

- *Modeling PASTRY Distributed Hash Tables with Resource-Conscious Pi-Calculus*, University of Bologna (2014), PRIN CINA project;
- *Revisiting Causality*, Volkswagen, Braunschweig (2014), EU FP7 ASCENS project;
- *Operational models for resource-aware calculi*, University of Pisa (2013), PRIN CINA project;
- *Resources in Cloud Computing*, Fraunhofer Institute, Berlin (2012), EU FP7 ASCENS project.

---

## Professional Service

### Organisation of events

2018 **2nd Workshop on Learning and Automata (LearnAut 2018)**, *Oxford*, UK.

Affiliated with FLoC 2018

2010-2013 **Organiser of the Mauriana Pesaresi seminars for Computer Science PhD students**, *University of Pisa*, Italy.

### Committee Memberships

ICE 2018 Program Committee, RADICAL 2017 Program Committee, POPL 2017 Artefact Evaluation Committee.

### Reviews

Journals Transactions on Modeling and Computer Simulation (ACM), Scientific Annals of Computer Science, Science of Computer Programming (Elsevier), Service Oriented Computing and Applications (Springer), Fundamenta Informaticæ.

Conferences & Workshops FORTE 2018, FOSSACS 2018, MFCS 2017, CALCO 2017, FORTE 2017, FOSSACS 2017, FORTE 2016, CONCUR 2015, LICS 2015, FSEN 2015, COORDINATION 2014, ICALP 2014, PDP 2014, LATA 2014, WRLA 2014, APLAS 2014, FORTE 2012, TCS 2012.

### Other

2017-present **Leader of the Categorical Automata Learning Framework research programme**, *UCL*.  
[www.calf-project.org](http://www.calf-project.org)

## Publications

### Book chapters

- [1] Roberto Bruni, Ugo Montanari, and Matteo Sammartino. “Reconfigurable and Software-Defined Networks of Connectors and Components”. In: *Software Engineering for Collective Autonomic Systems - The ASCENS Approach*. 2015, pp. 73–106. DOI: 10.1007/978-3-319-16310-9\_2.
- [2] Nicklas Hoch, Giacomina Valentina Monreale, Ugo Montanari, Matteo Sammartino, and Alain Tcheukam Siwe. “From Local to Global Knowledge and Back”. In: *Software Engineering for Collective Autonomic Systems - The ASCENS Approach*. 2015, pp. 185–220. DOI: 10.1007/978-3-319-16310-9\_5.

### Journal Articles

- [3] Roberto Bruni, Ugo Montanari, and Matteo Sammartino. “A coalgebraic semantics for causality in Petri nets”. In: *Journal of Logical and Algebraic Methods in Programming* 84.6 (2015), pp. 853–883. DOI: 10.1016/j.jlamp.2015.07.003.
- [4] Roberto Bruni, Ugo Montanari, and Matteo Sammartino. “Revisiting causality, coalgebraically”. In: *Acta Informatica* 52.1 (2015), pp. 5–33. DOI: 10.1007/s00236-014-0207-9.
- [5] Ugo Montanari and Matteo Sammartino. “A network-conscious  $\pi$ -calculus and its coalgebraic semantics”. In: *Theoretical Computer Science* 546 (2014), pp. 188–224. DOI: 10.1016/j.tcs.2014.03.009.

### Conference and Workshop Papers
