New virtual opportunities

Researchers have developed a pioneering, single-shot breast cancer treatment. UCL clinicians have pioneered a new method to treat breast cancer, requiring only a single shot of radiotherapy, as an effective and less invasive alternative. This innovative approach is set to revolutionise breast cancer treatment, offering hope to patients worldwide.

In the UCL Office, news and opportunities: the National Testing Programme is expanding amidst the pandemic. Could you support UCL people on the frontline by working in NHS Test and Trace laboratories? Apply here >>
