

EXEMPLARY TIMETABLE

The exemplary timetable below is close to the actual one. However, it is not possible to predict the exact schedule until a new session starts. While most courses will be taught by the listed academics, changes to the timetabling might be necessitated by staff changes, sabbaticals or buy-outs when grants have been obtained. Moreover, to enable maximal free choice, the timetabling aims to avoid overlap between modules – although some clashes are unavoidable, given the considerable number of options.

TERM 1						
	MONDAY	TUESDAY		WEDNESDAY	THURSDAY	FRIDAY
9-10						Palaeoanth Lab Aida Gomez-Robles (9:00-11:00)
10-11						
11-12		Palaeoanth UG (<i>ANTH0012</i>) Aida Gomez-Robles (11:00-1:00)			Palaeoanth PG (<i>ANTH0012</i>) Aida Gomez-Robles (11:00-1:00)	Repeat of Palaeoanth Lab 11:00-1:00
12-1						
1-2	Statistics 1 (<i>ANTH0114</i>) Mark Dyble (1:00-4:00)
