The archive on Cosmopolitan Development collects and organises the work, research and teaching material of Michael Safier, one of the most influential figures of the Development Planning Unit, from the early 1990s to 2006. The archive contains a wealth of material relating to Safier’s intellectual contribution to the international debate on cosmopolitanism and his innovative pedagogical approach developed at DPU that formed the basis for the MSc programme Cosmopolitan Development. The archive displays Michael’s early articles on cosmopolitan city in the 1990s, his work about Jerusalem and Sarajevo, and the teaching material he authored for the MSc Cosmopolitan Development. The archive also includes interviews with Michael, photographs he has taken and collected and other relevant material. All files available are free to download. The archival material was collected during January-April 2015 by the research team formed by Giovanna Astolfo, Sigi Atteneder and Giulia Carabelli. This project was made possible by the patient collaboration and engaged supervision of Michael Safier.
