

# Ambition

We address financial exclusion challenges faced by diverse ethnic communities (DEC), disadvantaged groups and young people

We also look to address high living costs, debt and mental health, exploitative lending, affordable housing and much more

We reach and engage with community groups that may not access the mainstream advice services due to lack of trust or awareness

To improve the financial and economical resilience of people and communities in the U.K.

# Activities

We develop services that help the change happen. We provide:

- One to one money advice sessions
- Accredited money mentoring training courses
- Financial education workshops
- Service user steering committee meetings to ensure user involvement
- Signposting and referrals to holistic support services
- Campaigning
- Recruiting our service users as staff & volunteers to ensure services are based around lived experience

We do this by offering a variety of services for our service users

*Monitoring & evaluation of activities and outcomes to ensure better social impact*

# Outcomes

Individuals and families will have increased their financial confidence, financial knowledge and skills

- They will be better able to deal with debts and money issues
- They will have an increased capacity to make better informed financial choices
- They will have a greater awareness of other local support services and networks
- They will experience positive and constructive behaviour changes towards money and saving
- They will gain volunteering experience and employability skills

As a result Communities will improve their financial and economical resilience
