# Welcome to THE BARTLETT, UCL's Faculty of the Built Environment

- The Bartlett is the UK's largest multidisciplinary faculty of the built environment, part of one of the world's top universities, UCL.
- Based in central London, we are situated close to world-leading architectural, engineering and creative practices, many of whom are our partners.
- The Bartlett is host to students from over 40 nations, many of them among the most sought-after in the world for their drive, creativity and skills.

# WE ARE THE BARTLETT

UCL'S GLOBAL FACULTY  
OF  
THE BUILT ENVIRONMENT

# WE'RE HERE TO BUILD A BETTER FUTURE

Our work is all about human spaces. That means physical structures like homes, buildings and cities, but also the invisible structures that govern these things: political and legal systems; financial frameworks and social norms; even our understanding of the past, present and future.

Combining design, history, theory, digital representations and models across all of these areas, we understand the structures shaping society today – and we work to make them fairer and more prosperous. That means we can:

- **Design buildings for places battered by extreme weather**
- **Develop emergency shelters for populations shattered by war**
- **Show that global shipping has a higher carbon footprint than the whole of Brazil**
- **Show why government agencies can be just as entrepreneurial as Silicon Valley**
- **Shape the policies that make this happen**

The possibilities are endless. Join us and be part of the change we want to see.

#### 4 About the Faculty:

The Bartlett consists of thirteen schools, centres, institutes and units. Individually, our departments explore their fields in-depth, striving to push the boundaries of knowledge in their specialist areas. In partnership, they work to develop new responses to some of the world's most pressing issues. This comes together in our multidisciplinary and interdisciplinary faculty, united by the radical spirit of UCL.

# OUR LOCATIONS

Within the extraordinary cultural diversity of London, you'll find galleries and collections that relate directly to the built environment, such as those at the Building Centre, the V&A and the Royal Institute of British Architects (RIBA). The British Architectural Library at the RIBA is considered one of the best in the world. The city's wealth of resources, partners and history on your doorstep allows you to learn about the built environment in a unique way.

‘The Bartlett has a very special atmosphere and it made a life-long impression on me. The building is buzzing.’

**Barbara – MA Architecture and Historic Urban Environments**

## Bloomsbury

Our main campus is located in Bloomsbury and includes 22 Gordon Street. The building reopened in 2016, following a four-year, £30 million refurbishment and extension. It contains brand new studios, shared working areas, a contemporary exhibition space, cutting edge facilities such as the new B-made workshop, plus buzzing social areas and cafes.

The Bartlett's library at Central House in Bloomsbury is one of the most comprehensive collections on the subjects of architecture, planning, building and construction management.

## Here East

Based at Queen Elizabeth Olympic Park in East London, UCL's space at Here East is a unique collaboration between The Bartlett Faculty of the Built Environment and the Faculty of Engineering Science. It provides our students and staff with unique opportunities to undertake ground-breaking research in areas such as architecture, infrastructure, transport robotics, healthcare, manufacturing and environmental measurement.

## UCL East

UCL's new campus at the Queen Elizabeth Olympic Park offers exciting new degrees and gives us the space and scale we need to help tackle the biggest challenges facing people and the planet. It's the biggest development in our nearly 200-year history.

Our One Pool Street base opened in autumn 2022. Full of multidisciplinary research labs and studios exploring ecology, robotics, urbanism, culture, disability and heritage, with a lecture theatre doubling as a cinema, a shop, café and homes for 500+ students.

Marshgate (autumn 2023) will be eight floors of hi-tech, cross-disciplinary research labs, teaching areas, fabrication workshops, collaboration spaces, a library, a refectory, prayer space and a UCL Institute of Making.

### East Bank

UCL East is a founding partner of East Bank, a new powerhouse for innovation, creativity and learning on Queen Elizabeth Olympic Park, along with the BBC, Sadler's Wells, the V&A and UAL: London College of Fashion.

# OUR FACILITIES

## Comprehensive collection on the built environment

The Bartlett's library at Central House is one of the most comprehensive collections on the subjects of architecture, planning, building and construction management. You will also have access to UCL's Main Library, and some impressive spaces across campus devoted to studying and collaborating - including 1,000 study spaces in the Student Centre.

UCL Library Services hold a vast collection of books and journals. As well as the collections that we hold on campus, UCL Library Services provides an extensive and expanding catalogue of digital books, journals and databases that can be accessed anywhere in the world.

## B-MADE: Rethinking tools, processes and materials

The Bartlett School of Architecture's B-made workshop at 22 Gordon Street and Here East hosts a range of powerful resources, combined with large, open spaces that can be used for full-scale prototyping and assembling. Faculty members, research staff and students are invited to use these, from concept and design stages through to completion. Professional support is provided by our team of expert staff through structured inductions, tutorials and open classes.

### Facilities include:

- Imaging, robotic and computer interfaces
- High-performance environmental chambers, including a human chamber and a thermal chamber
- Light and lighting facilities, including a dark room and a variable luminance artificial sky
- Teaching labs and field equipment
- B-made workshop

The Bartlett community comprises 4,000 students from over 50 countries, studying across 80+ different degree programmes. Our emphasis on interdisciplinary study creates opportunities for collaboration and innovative approaches to built environment challenges. In our own community and in society at large, we value creativity, integrity, equity and autonomy in the development of a sustainable, diverse world in which we all can live.

## **A Bartlett for everyone**

To build a better future, first we need to build a better Bartlett. One where everyone has space to be their authentic self, no matter their background, race and ethnicity, sexual orientation, gender or beliefs. Our blueprint for a more inclusive faculty is ambitious and we are radically rethinking our academic approach. We want to call ourselves a truly inclusive faculty and ensure The Bartlett is for you.

## **Building Better: The Bartlett Podcast**

The human spaces and urban landscapes that we build worldwide have a huge impact on our daily lives, our societies, and our planet. In our Bartlett podcast we take on the big question: how can we build better? Hosted by Christoph Lindner, Dean of The Bartlett Faculty of the Built Environment.

### Sustainability

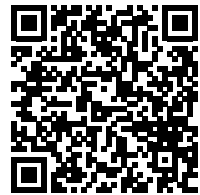

Sustainability and energy efficiency inform everything we do as a university faculty: our teaching, our research, our consultancy and all the advice we issue to government and the public. You'll find our commitment to sustainability also runs through everything we do as an occupier of several buildings in Central and East London: putting theory into practice in our own buildings.

## Ranked #8 university in the world

(QS World University Rankings 2023)

By joining UCL you will be part of one of the oldest and most prestigious universities in the UK. At UCL, academic excellence and disruptive thinking have been the status quo since 1826. It was the first university to be established in London, and the first entirely secular university to admit students regardless of religion. It was also the first university to admit women on equal terms with men.

Today, UCL strives to make its community as inclusive and supportive as possible to all students and staff.

## Student Support and Wellbeing

Your wellbeing is just as important as your academic success. UCL Student Support and Wellbeing (SSW) provides advice, information and dedicated support services to help you maximise your time at UCL, whilst leading a balanced and healthy life. SSW offer a huge range of information and advice to help you thrive at university including information for disabled students, those with mental health difficulties, care leavers, mature students and LGBTQ+ students.

## Postgraduate Students' Association

All graduate students automatically become members of the Postgraduate Association of Students' Union UCL. The Union offers various facilities including social facilities, sports facilities and more.

# CAREERS AND ALUMNI

Studying with us is about the bigger picture. It's about exploring individual disciplines within the context of many others, and discovering specialisms, themes and passions that take you where you want to be, wherever you are in your education or career.

18 Whatever you want to do in the future – whether your career path is clear or not – we are here to help you.

Our team of experienced career professionals are dedicated to supporting all current UCL students, Researchers (staff and students), and recent Graduates to help you find the right path to ensure success in your future career.

[ucl.ac.uk/careers](https://ucl.ac.uk/careers)

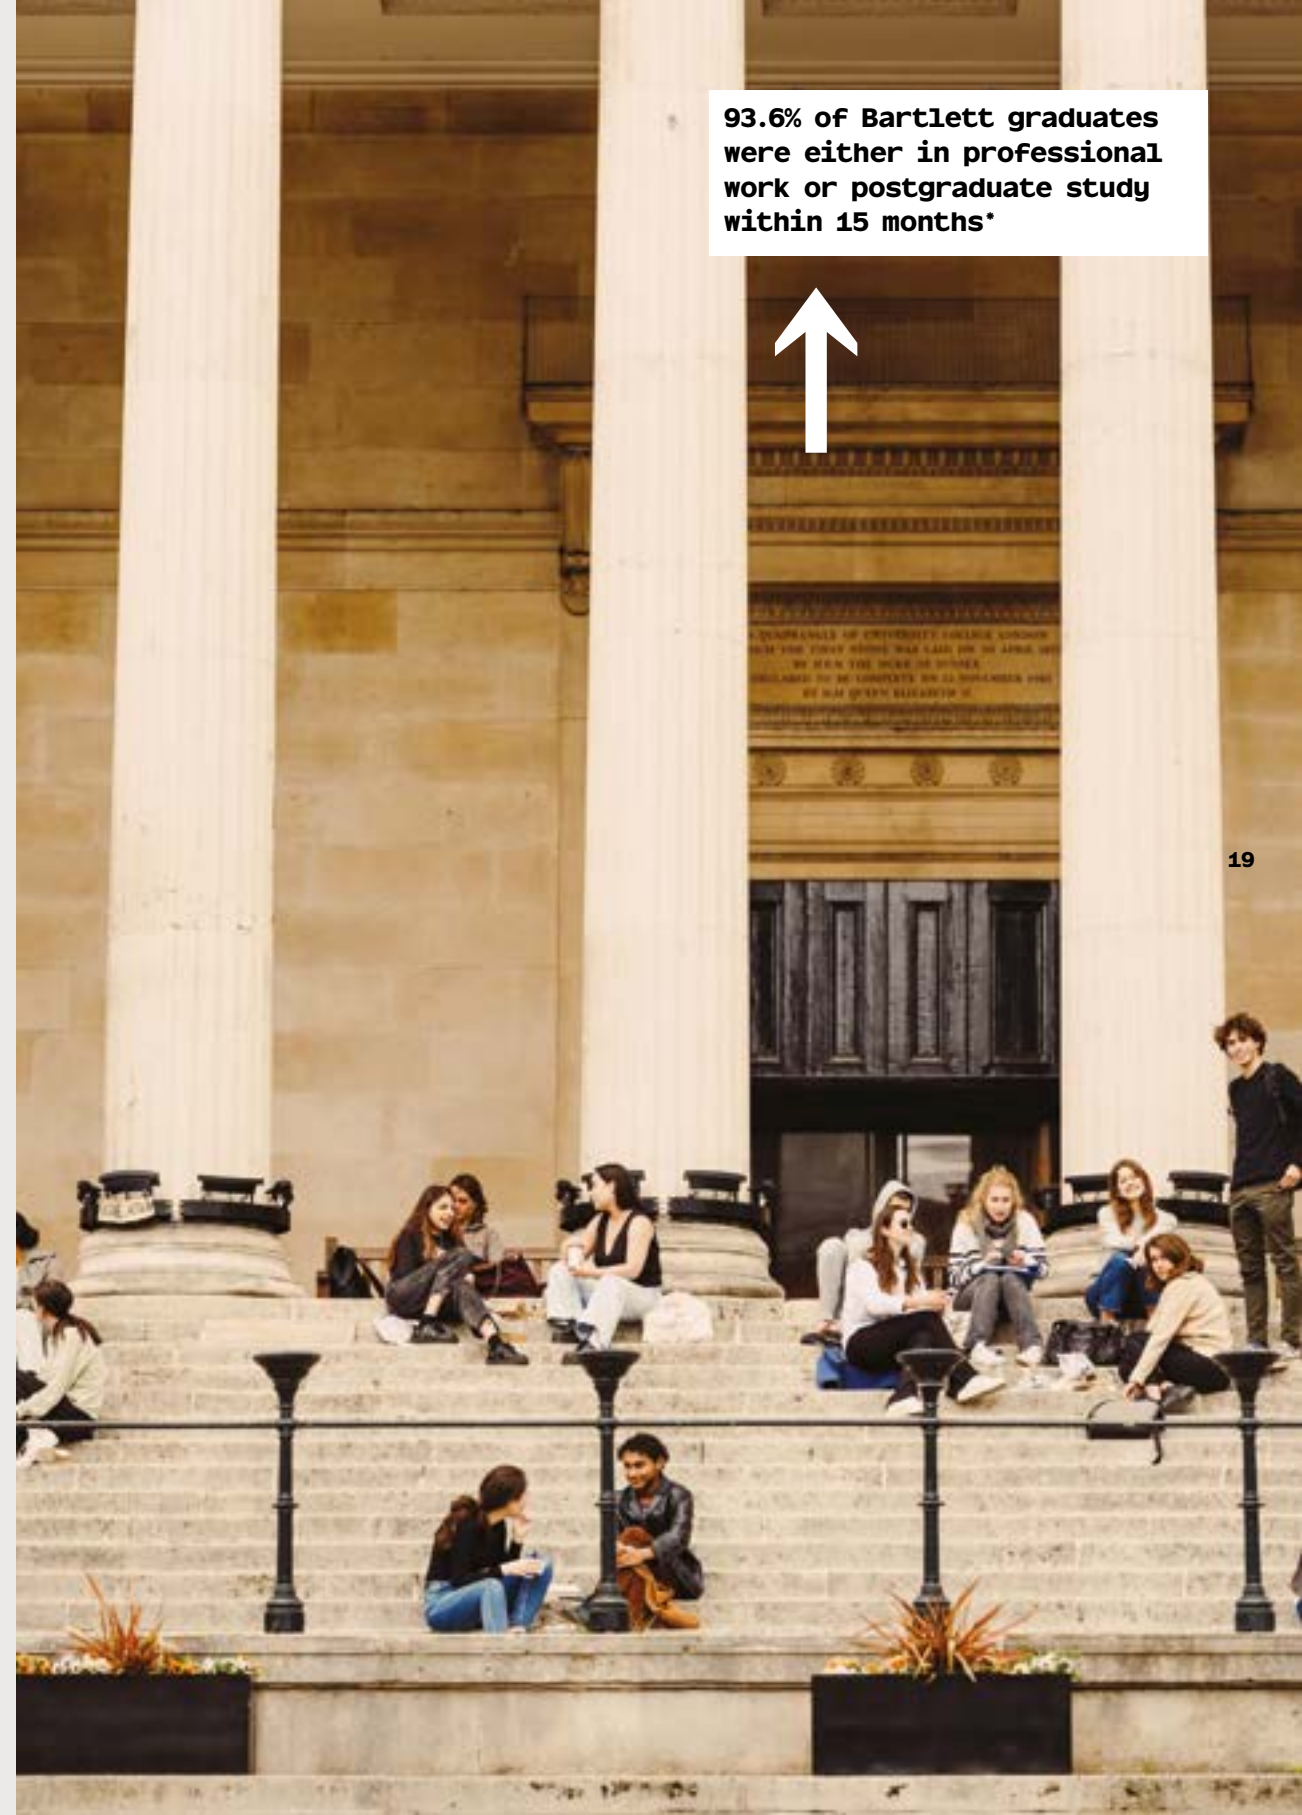

## **Career support from your alumni network**

UCL's Alumni Online Community allows students from all levels of study to connect with volunteer mentors from 190 countries. There is a dedicated Built Environment Network and international groups, so you can build new connections with alumni worldwide.

Whether you are seeking professional advice to perfect your CV or want to explore a particular company, a global network of experienced UCL alumni are ready to support you.

\*Within 15 months of graduating from a Bartlett postgraduate programme, 93.6% of all those available for work or study were either in professional work or postgraduate study or had just completed a course of postgraduate study. Data collected through the annual Graduate Outcomes survey, aggregated over the three most recent surveys (2017-18, 2018-19, 2019-20).

93.6% of Bartlett graduates were either in professional work or postgraduate study within 15 months\*

# HOW TO APPLY

## Applications and funding

Applications for graduate study at The Bartlett are made directly to UCL. We know applying for courses can be daunting, so there is a guide to help you through.

[www.ucl.ac.uk/prospective-students/graduate/](http://www.ucl.ac.uk/prospective-students/graduate/)

A range of financial awards aimed at assisting both prospective and current students with their studies are available from UCL, The Bartlett Faculty, and individual departments within the Faculty.

## The Bartlett Promise Scholarship

The Bartlett Promise is a long-term project to attract students from a broader range of backgrounds to tackle the lack of diversity in the built environment. The scholarships are open to UK domiciled students with home fee status from underrepresented backgrounds pursuing a undergraduate, master's or PhD programme at The Bartlett. The scholarships will cover students' fees and provide a stipend for living and study costs for the duration of their degree.
