

## J. PhD Medical Sciences, 2010

### Current Role:

■ Consultant Neurologist

### Sector:

■ Health

J. works for the NHS as a Consultant Neurologist with a specialist interest in multiple sclerosis. J.'s PhD expertise is essential to his role, and his research focused on the use of volumetric MRI to investigate neurodegeneration and neuroprotection in secondary progressive multiple sclerosis. He has since been required to gain the Speciality Certificate in Neurology from the Membership of the Royal Colleges of Physicians.

Between 2009 and 2013 J. was a NHS Specialist Registrar in Neurology. Before completing his doctorate J. was already on the career path of a Neurologist. Since graduating with his PhD, J. secured positions through searching job adverts in industry/sector-specific publications.

J. recalls his PhD as a very enjoyable, exciting, rewarding and useful way to spend four years. As a Consultant Neurologist, J. uses transferable skills such as problem solving, communication skills and leading a team that were developed by his PhD training.
