The Francis Crick Institute

The Francis Crick Institute is a biomedical discovery institute dedicated to understanding the scientific mechanisms of living things. Its work is helping to understand why disease develops and to find new ways to treat, diagnose and prevent illnesses such as cancer, heart disease, stroke, infections, and neurodegenerative diseases.

The Francis Crick Institute was founded by six of the UK's most successful scientific and academic organisations - the Medical Research Council (MRC), Cancer Research UK (CRUK), the Wellcome Trust, UCL (University College London), Imperial College London and King's College London

Join us and impact millions of lives, together.

Cambridge Healthcare Research

camhcr.com

Cambridge Healthcare Research (CHR) is a consultancy providing strategic support to biopharmaceutical, medical device and NGO clients.

CHR's expert team of analysts and consultants, based across Europe, North America and Asia, is able to utilise their therapy area knowledge, expertise and languages to deliver tailored solutions based on our analysis and experience of strategy consulting and product commercialisation in the pharmaceutical, biotechnology, medical device, and life-science sectors.

Our primary mission is to enable our clients to navigate the evolving healthcare market and competitive landscape by mapping their position in a complex environment, as well as outlining competitor activities, intent and capabilities.

Costello Medical

www.costellomedical.com/careers

Costello Medical is a rapidly growing global healthcare agency specialising in medical communications, market access and health economic and outcomes research. We work with a wide range of clients, including the industry's most successful pharmaceutical and medical technology companies, patient and public health bodies and charitable organisations. Our lasting client partnerships create a direct and measurable impact on the successful launch of novel therapies and devices across a wide range of disease areas. Our vision is to be a community of the very best people, constantly challenging ourselves to make meaningful and outstanding contributions to improving healthcare.

We are committed to our company values which are central to creating our fun, friendly and innovative workplace in which we strive to deliver the highest standards of quality. As a result, we have been listed in The Sunday Times Top 100 Best Small Companies to Work For list for four consecutive years.

Executive Insight

www.executiveinsight.ch/en

Executive Insight is a specialist healthcare consultancy that supports (bio)pharmaceutical companies to successfully prepare, launch, and commercialize their products. We design and implement customer-centric brand and market access strategies that go "beyond the pill", deliver value to payers, prescribers and patients, and ultimately improve outcomes.

For more than 10 years, we have supported Market Access, Marketing, and Sales teams across a number of therapeutic areas in Specialty & Primary Care, across Europe, Emerging Markets and beyond.

Healthcare Consultancy Group

www.hcg-int.com

Healthcare Consultancy Group (HCG) serves the pharmaceutical, biotech, and device industries by providing strategic, scientific communications solutions at all stages of the product lifecycle. HCG's nine companies have unique capabilities and cultures yet share a philosophy that puts our clients' drugs at the center of all we do. Part of Omnicom's Diversified Agency Services (DAS), HCG is a leader in the healthcare segment, with over 700 employees, more than 90 with advanced degrees (MD, PhD, or PharmD). We are a scientifically rigorous, strategically focused, creatively balanced agency built for the future.

Innovia Technology

www.innoviatech.com/careers

Innovia is a small, friendly Cambridge-based innovation consultancy. We work in multidisciplinary teams to understand, create and problem-solve for some of the world's biggest companies. Clients like Procter & Gamble, LEGO, KraftHeinz and Jaguar Land Rover trust us to help them invent the future. Our approach is 'holistic' – we bring together diverse capabilities to gain creative insights.

This means that you'd work together with people whose background may be in organic chemistry, theoretical physics, materials science, mechanical engineering, industrial design, veterinary medicine, public health, psychology - and many more.

Consultants work on projects across multiple industries from energy, to food, medical devices and consumer goods - allowing you to expand your expertise to engage with a broad range of complex problems in an environment which values work-life balance. We welcome applications from everyone, no matter how they categorize themselves, and we're a Tier 2 Visa sponsor. Full time consultant roles and internship opportunities are open now on our website.

IQVIA

www.iqvia.com

Consulting Services is the world's leading, specialised advisor on critical business issues in the life sciences. We are the global strategy arm of IQVIA, our team offers end-to-end management consulting in key issue areas that include: therapy area, brand strategy, portfolio analysis, launch excellence, pricing & market access, and commercial model design, digital health and AI/ML solutions. It is our passion to apply creative research solutions to dynamic healthcare challenges.

Build a rewarding career in life sciences consulting and forge your own path. Partner with collaborative teams and leaders across unique projects and geographies, delivering innovative solutions to the most complex healthcare problems along the way.

Embrace your curiosity, put your passions to work, and never stop learning. If you're ready to make an impact on the healthcare industry as part of our team of management consultants, apply to join us today. We also have a variety of internships and graduate opportunities across IQVIA. From data sciences, research and development and commercial solutions, we are sure we'll have suitable roles for you! Just take a look on our careers page for a plethora of opportunities.

J A Kemp LLP

www.jakemp.com

About Us

J A Kemp is one of the largest UK and European patent and trade mark attorney firms with offices in London, Oxford, Cambridge, Paris and Munich. J A Kemp's patent attorneys handle patent applications in the UK, Europe and worldwide. The firm has particular expertise in patent oppositions and appeals, especially before the European Patent Office.

J A Kemp has a varied client base ranging from startups, spinouts and SMEs through to some of the largest corporate clients and most prestigious academic institutions in the world. Opportunities Available We are looking for bright graduates suited to an intellectually challenging and rewarding career that brings together a unique blend of science, law and business skills.

Trainee Patent Attorney candidates should have an excellent track record of achievement at school and university, with a minimum of a 2:1 honours degree in a scientific or technical subject, preferably physics, engineering, computer science, chemistry or biosciences.

We are open to applications from candidates holding or studying for a first or higher degree or doctorate.

Training

Our programme of training takes you right through to qualification as a patent attorney (European and UK Chartered). We support you with one to one mentoring, external courses, internal tutorials and on-the-job training. Our reputation for training and our record of first time examination success are second to none. We will continue to support your professional development throughout your career. We offer a sensible work/life balance combined with excellent salary prospects, flexible working and generous benefits. We have a friendly and supportive culture.

L.E.K. Consulting LLP

www.lek.com

At L.E.K. Consulting, we are passionate about helping our clients achieve practical results with real impact. Today, L.E.K. is a global strategy consulting firm with clients and presence in the Americas, Europe and Asia-Pacific. We are in the business of advising clients — many of which are facing unprecedented change and disruption in their industries, and need a fresh perspective — on their most pressing business challenges.

Our ongoing aim is to help clients succeed. We examine these challenges in new ways to produce breakthrough insights and deliver new solutions. We deliver insights with impact for our clients using our unbiased, fact-based, rigorous approach to uncover business truths.

Whether it's a global pharmaceutical company evaluating its strategy to develop new cures for diseases, an airline seeking new revenue sources in a challenging deregulated industry or a global footwear company repositioning its brands, our clients rely on L.E.K. to help them meet their toughest challenges and take advantage of their biggest opportunities. Our deep industry expertise, analytical rigor and the knowledge that it takes to turn insights into action are the hallmarks of our approach.

Lucid Group

wearelucidgroup.com

We are a global multi-capability healthcare communications company who brings magic to our clients and programmes. We are pioneers in medical education. We incorporate health psychology and behaviour change principles into our work. Our purpose is clear. Our goal is to transform lives. Always.

McCann Health Medical Communications

www.mccannhealth.com/medical-communications-agencies

Our Medical Communications expertise at McCann Health encompasses a group of specialist agencies; Caudex, CMC Affinity, CMC Connect, Complete HealthVizion and Complete Regulatory. We work with clients in the pharmaceutical, biotechnology and related sectors to deliver medical communications and educational programs, regulatory support, strategy development, and multichannel stakeholder engagement.

We're passionate about the work we do and that's just one of the reasons why we enjoy lasting relationships with the world's top healthcare companies. In multiple locations across the globe, our people are the beating heart of our organisation. That's why we are committed to providing rewarding careers and continual skills development; tailoring learning plans to the needs of individuals – supported by first-class line management.

We are an ever-evolving, globally connected community of over 500 people, with offices in Asia, Europe and North America. We offer an inclusive working environment where diversity is celebrated and fresh thinking is encouraged. The Medical Communications agencies within McCann Health benefit from the dedicated support of a number of specialist departments, working as strategic partners across the business, and acting as catalysts for business growth. The Shared Services team includes Finance, Human Resources, IT and Office Management. Our Creative Studio is the home of big thinkers, innovators, technologists, visionaries and artists working together in inter-disciplinary teams to deliver multi-channel creative solutions on behalf of the specialist medical communications agencies at McCann Health.

Through the positive culture we foster, our teams create communications that not only have a positive impact for our clients, but also impact on the world around us too.

Merck KGaA

www.merckgroup.com/en

At MSD in the UK, we're 'Inventing for Life'. We're helping to transform the lives of millions of patients in the UK by providing innovative medicines, vaccines and services, through our partnerships with the NHS and the work of the inspiring people who make up our company. Whatever your career goals or background - whether you want to pursue research in the laboratory or have an interest in clinical development, manufacturing products or supporting our business in commercial or Head Office positions - MSD UK offers Early Talent opportunities to kick-start your career. Join us in the quest to save and improve the lives of people and animals around the world. We offer both exciting 12-Month Industrial Placement and 24-Month Graduate opportunities across MSD. Come and speak to us at our stand to find out more!

Mitra Bio

www.mitrabio.tech

Mitra Bio is a biotech start-up focused on skin longevity. We are developing a skin epigenetics platform to enable diagnostics and therapeutics starting with skin ageing. We are looking for a brilliant bioinformatician/data scientist ML to join the team.

NHS Leadership Academy

www.nhsgraduates.co.uk/job-board

Welcome to the home of health and care leadership development. Our curriculum of programmes, resources and activities bring world-class learning and development to NHS people and partners.

Novasecta

www.novasecta.com

Novasecta is a boutique strategy consulting firm based in London, working with management teams in pharmaceutical and biotech companies. We are passionate about our team's development and celebrate external commitments knowing they make us more impactful in our work and help us achieve a great work-life balance. If you are an undergraduate or advanced professional degree candidate (PhD, MBA, MD, VetMB) interested in becoming an exceptional life sciences strategy consultant, please join us for the live presentation. We look forward to meeting you!

Novo Nordisk

www.novonordisk.com

At Novo Nordisk, we don't wait for change. We drive change. We're a dynamic company in an even more dynamic industry, and we know that what got us to where we are today is not necessarily what will make us successful in the future. We embrace the spirit of experimentation, striving for excellence without fixating on perfection.

We never shy away from opportunities to develop, we seize them. Working at Novo Nordisk is working toward something bigger than ourselves, and it's a collective effort. Novo Nordisk relies on the joint potential and collaboration of its more than 40,000 employees to change the lives for the better for millions of patients living with diabetes and other chronic diseases.

Prescient Health

prescienthg.com

Are you a highly-motivated, high-performing life sciences student looking for graduate career opportunities?

Prescient is a pharma services firm specializing in dynamic decision support and product and portfolio strategy. As a graduate, you will be a part of our mission of turning science into value. We assist our clients by helping them understand the potential of their molecules, shaping their strategic plans and allowing their decision making to be the biggest differentiating factor in the success of their products.

We are confident that we will be able to offer you a unique opportunity to grow and accelerate your career.

Join us in a group chat alongside members of our team. This will be an opportunity for you to ask questions and discuss any topics you want to know more about. We will be able to highlight the positives as well as the challenges we face within the industry. Attending the session will give you the opportunity to put your questions to the experts and current employees.

Scitaris

www.scitaris.com

Are you passionate about science and have a keen interest in the pharmaceutical, life science and healthcare industries? Would you like to have a job in which you can make a real impact on how the biopharma industry brings new drugs to the market? Do you prefer working in a stimulating, international environment, with a flat idea hierarchy?

Then SCITARIS might just be the right place for you... SCITARIS is a consulting firm focused on R&D strategy support for pharma and biotech companies, founded from our passion for science and dedication to support innovative drug development. Our team combines scientific expertise from different disciplines, including chemistry, biology and pharmacology, with long-standing experience in strategic consulting for the healthcare industry. Our unifying conviction is that in the complex world of biopharma R&D, deep scientific and clinical understanding drive all viable business strategies and are crucial to successfully bring value to patients, drug developers and society.

Simcere Pharmaceutical Group

en.simcere.com

Simcere Pharmaceutical Group is a science-led Chinese pharmaceutical company with over 5000 employees. It is amongst the pioneering companies to develop and launch innovative drugs in China. Simcere is actively looking for innovative drug candidates in all stages in the therapeutic areas of oncology, CNS, autoimmune and infectious disease, as well as technology platform in cell therapy and artificial intelligence. Simcere now has a significant global presence, including the US and Europe.

Sysmex Corporation

www.sysmex.co.jp/en/

Sysmex Corporation is an integrated company that specializes in researching, developing and manufacturing instruments, reagents, and software for IVD testing in fields such as hematology, hemostasis, urinalysis, immunochemistry and the life sciences. Our dedicated team of research scientists and engineers based in Kobe, Japan, are now developing preemptive and precision healthcare technologies through the analysis of gene, cell, and protein measurement platforms. We look forward to hearing from scientists and engineers (computer science, big data analytics, bioengineering, etc.) who wish to pursue a career in healthcare diagnostics and share our passion and commitment to shaping the advancement of healthcare.

All positions are located at our state-of-the-art research centre, Technopark, in Kobe (Japan) and we provide comprehensive support for visas and relocation costs (all costs borne by Sysmex). Fluency in Japanese is not required, and we provide Japanese language training for all successful applicants prior to their arrival in Japan.

Windrose Consulting Group

windrosecg.com

Windrose Consulting Group is a global commercial strategy consulting firm focused on the healthcare industry. We help life science companies maximize the commercial value of their products and bring new innovations to market for the benefit of society. Windrose provides commercial strategy services focused on product and portfolio planning, and pricing and market access strategies. When you work with us, you'll have the opportunity to gain global experience in markets across North America, Latin America, Europe and Asia Pacific. Each engagement presents new challenges and opportunities for professional development.

We have roles available for undergraduates, masters and PhD students, whether or not you have previous experience in the industry.

Please come along and ask us any questions you have about the company and the roles we have available. We look forward to meeting you!
