

# Fundamentals of Paediatric Physiotherapy Online Short Course

This online, self-paced online course provides an introduction to paediatric physiotherapy and aims to equip physiotherapists with fundamental knowledge and skills related to working with children and young people.

# Fundamentals of Paediatric Physiotherapy

## Online Short Course

### Course structure

The course is comprised of one compulsory introductory module and 3 key modules which can be undertaken separately or together.

- Fundamentals of Paediatric Neurophysiotherapy
- Fundamentals of Paediatric Musculoskeletal physiotherapy
- Fundamentals of Paediatric Cardiorespiratory physiotherapy

Each of the three modules are comprised of four learning units. Students will have access to the course for 16 weeks from the start date. You can join the course after the start date, but your access will end 16 weeks after the start date.

This course is for qualified physiotherapists who want to expand their knowledge in the field of paediatrics. The course will also prepare participants for post graduate credited education eg MSc Paediatric Physiotherapy

### Assessment

Students will be assessed at the end of each module by a quiz. Students need to pass to receive the course certificate.

### Dates

Three start dates per year:  
March, July and November.

### Cost

This course fees are:

**£450** – for the full course (3 modules)

**£155** – for one module (include the foundation course)

**Course Team:** Dr Jane Simmonds, Naomi Winfield and Annette Coomer
