

Benefits of Language Learning

Your views wanted

We would like to hear your views on language learning. It does not matter if you can speak only one language or know several languages. We are interested in your language learning experiences and thoughts.

We would be most grateful if you could complete a short online questionnaire:

<https://www.surveymonkey.co.uk/r/learninglanguages>

This project is based at University College London, and funded by the British Academy. The findings from the survey will help to inform policies and practices of language teaching and learning in Britain. For more information, please visit: <http://www.ucl.ac.uk/cognitive-benefits-language-learning>
