**Data Collection**
(Birkbeck College)

Electronic data (i.e., eye-tracking and EEG) will be saved onto the encrypted server at Birkbeck College. All background questionnaires, language surveys, and consent forms will be collected in hard-copy.

**Data transfer from Birkbeck to UCL:**
Electronic data will be transferred via secure remote connection between UCL and Birkbeck’s encrypted servers. Hard-copy

**Live Data Storage**
(UCL)

Electronic data will be kept on a secure UCL server. All directly personal identifiable information will be removed from all data files to pseudonymise the files on the server. The keys containing identifiable information will be kept on Data Safe Haven. Hard copy forms will be kept in a locked cabinet in a locked office.

**Long Term Data Storage**
(UCL)

At the conclusion of the research project (24/09/2021), the research team will decide what data must be maintained for further research purposes. Any data deemed unnecessary for future projects will be properly deleted in accordance with GDPR. Any remaining data will be archived at the ICN in a safe where only the research team can access it.
