

What do UCL Graduates do?

You might be considering UCL as a prospective student, be part way through your degree or perhaps you have already graduated. Whatever your situation, you will find interest in discovering what UCL alumni have gone on to do following their degree.

Search by course and department

This dashboard from UCL Careers gives details of what graduates were doing six months after graduating, where they work and what they earn, so you can understand possible career paths.

Use the filters to show data that is of interest to you. Note that where the number of responses is fewer than 20, that employer names are suppressed to protect the anonymity of graduates. In this case, add more courses to your selection. Salary, employment location and sector information is based on full-time workers only.

About this data

The data in this section has been collected through the annual Destination of Leavers from Higher Education (DLHE) survey, aggregated over the four most recent surveys (2013/14, 2014/15, 2015/16, 2016/17). The survey is completed by graduates six months after graduation.

Salary is calculated for those whose main activity was working full-time. Employers and job titles lists are sorted by most common, then alphabetically.
