<b>17:00</b>	Drinks and canapes
<b>18:00</b>	Finish

---

Researchers, professionals and Londoners interested in community-engaged engineering and/or the built environment are invited to this free event, hosted by the Engineering Exchange at UCL.

Participants will have the opportunity to gain insight and contribute to discussions on issues related to green infrastructure, air quality, waste infrastructure and community energy. There will also be an opportunity to develop project collaborations between UCL and community groups in London.

We hope to see you there.
