Consent withdrawal form: Primary Care records

In a past ELSA interview we asked about your health and economic circumstances. Our records show that you previously gave us your consent to find out more about your health and treatment from NHS primary health care records.

We only use the information from these records for research purposes. Names and addresses are never included in the results and no individual can be identified from the research.

Please indicate that you wish to withdraw your consent by putting your initials in the box below. Withdrawing your consent will mean that your information will not be made available in the future to anyone wishing to carry out analyses of this data. Please ask the interviewer about anything that concerns you or call the ELSA team on 0800 652 4574.

PRIMARY HEALTH CARE DATA

I withdraw my consent for The Health and Social Care Information Centre (previously the Department of Health) to disclose to NatCen Social Research a link to information about my health and treatment held in primary care data.
