

COVID-19 Participant / Household Screener

Participant & household health screening must be carried out in advance of making an appointment for an in home visit **AND** on the day of the pre-arranged appointment, before entering any participants' home.

1. Do you or another member of your household have any of the following symptoms?
 - a. **a high temperature** – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
 - b. **a new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
 - c. **a loss or change to your sense of smell or taste** – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal
2. Have you or another member of your household been in close contact with anyone in the last 14 days who is experiencing these symptoms?
3. Are you or any member of your household currently self-isolating, shielding or quarantining?

Fieldworker Instruction:

If the response is "NO" to each of questions 1 - 3, you may make an appointment for or carry out the pre-arranged in home visit.

If any of questions 1 – 3 are answered "YES", you must **NOT CARRY OUT AN IN HOME VISIT** with the household for a minimum period of 14 days. Appointments must be planned or re-scheduled accordingly or an option provided for a telephone or video conference interview.
