Consent withdrawal form D: Cancer and death records

Our records show that you previously gave your consent to send your name, address and date of birth to NHS Digital (formerly the Health and Social Care Information Centre) for the purposes of linking to routine administrative data. The information held and managed by NHS Digital may be used to provide information about your health status from cancer and death records (i.e. data about type of cancer and/or cause of death). By giving consent to data linkage, you only gave permission for the linking of this routine administrative information and nothing else.

We only use the information from these records for research purposes. Names and addresses are never included in the results and no individual can be identified from the research.

Withdrawing your consent will mean that your information will not be made available in the future: NHS Digital – the national controller of health data – will not pass on information about your health status to anyone wishing to carry out analyses of this data.

Please ask the interviewer about anything that concerns you or you can call the ELSA team on 0800 652 4574.

CANCER AND DEATH RECORDS – Withdrawing Consent

I withdraw my consent for NHS Digital (formerly the Health and Social Care Information Centre) to disclose to the ELSA Research Team (comprising researchers at University College London (UCL), Institute for Fiscal Studies (IFS), University of Manchester and NatCen Social Research) information about my health status.

Please initial the box to indicate you wish to withdraw your consent.
