# Consent form C: Primary care records

We have asked about your health. To make this information complete we would like to find out more about your **health and treatment** from data held and managed by **NHS Digital**, the national controller of health data. Data accessed would be **primary care records** including doctor and nurse consultations, diagnoses received, treatments given and referrals made.

We need your written permission for any information to be released. You do not have to give your consent for us to collect this data if you don't want to.

Data will be used by the ELSA Research Team consisting of researchers at University College London (UCL), Institute for Fiscal Studies (IFS), University of Manchester, and NatCen Social Research under restricted access arrangements which make sure that the information is used responsibly and safely.

Only NatCen Social Research, whose interviewers conduct the ELSA interviews with you, will have access to information that can be used to identify you – like name and address. Access to the data for other qualified researchers can only be granted by the ELSA Research Team through a separate written application process that has been approved by NHS Digital. The information will be completely confidential and will be used for research purposes only by academic or policy researchers under restricted access arrangements.

As we would like to look at long term trends in people's health, we have not set a limit on how long we would like to keep your information. ELSA has been running since 2002 and is very valuable for looking at how people's health changes over time.

Please ask the interviewer about anything that concerns you or you can call the ELSA team on 0800 652 4574. You can cancel this permission at any time in the future by writing to: NatCen Social Research, Kings House, 101-135 Kings Road, Brentwood, Essex CM14 4LX.

## PRIMARY CARE RECORDS - Giving consent

**I DECLARE** - I have read or heard this information and have had the opportunity to ask questions.

**I AUTHORISE** - NatCen Social Research passing my name, address, sex, date of birth and NHS Number to NHS Digital & NHS Digital to provide the ELSA Research Team (comprising researchers at UCL, IFS, University of Manchester and NatCen) with information about my health and treatment held in primary care records which will be available in the future.

**I UNDERSTAND** - All the information about me will be treated in strict confidence and used solely for statistical and research purposes. Access to the data for other qualified researchers can only be granted by the ELSA Research Team through a separate written application process that has been approved by NHS Digital.

**Please initial the box to indicate that you give permission.**

The consent will remain valid until revoked by me in writing.
