# Apply to be an accredited researcher

- In order to apply for and use the ONS Longitudinal Study you need to be an Accredited researcher.
- Whilst you are developing your ONS LS application with CeLSIUS you should register with the Research Accreditation Service and apply for accredited researcher status (see: [https://researchaccreditationservice.ons.gov.uk/ons/ONS\\_Registration.ofml](https://researchaccreditationservice.ons.gov.uk/ons/ONS_Registration.ofml)).
- Complete Safe Researcher Training (online) and pass post-training assessment.
- It is important that this process is completed when CeLSIUS submits your ONS LS application.

# Work with CeLSIUS to complete the ONS LS application forms

There are three forms that you need to complete in order to apply to use the ONS LS:

- [Research Project Accreditation Application form](#).
- [ONS Longitudinal Study Supplementary form](#).
- [Ethics Self-assessment sheet](#).

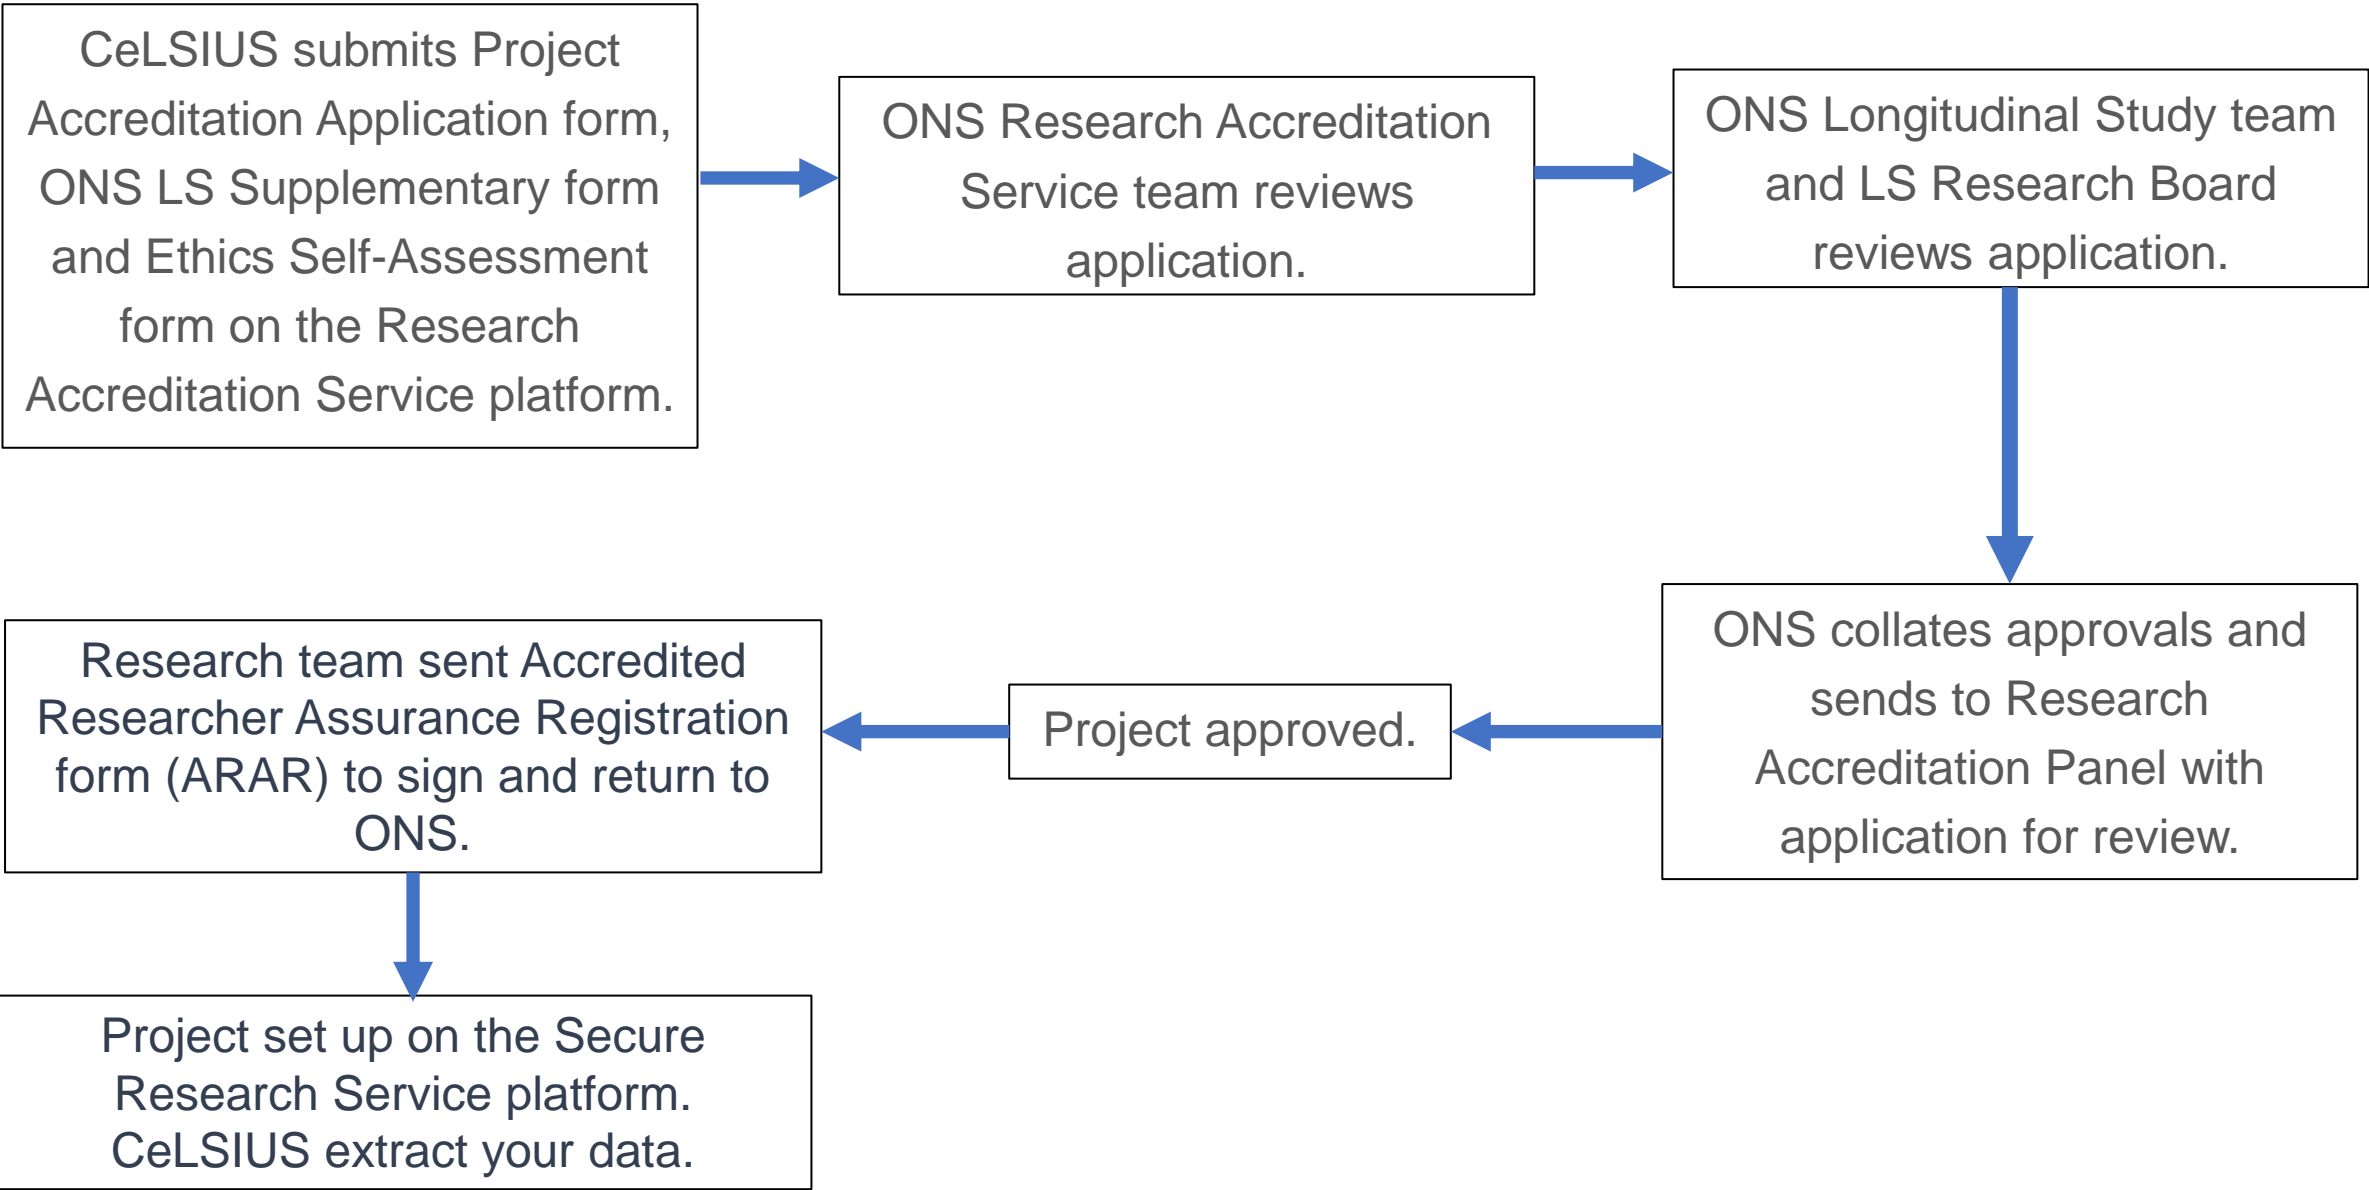

Send the completed forms to CeLSIUS to review ([celsius@ucl.ac.uk](mailto:celsius@ucl.ac.uk)).

CeLSIUS User Support Officers will review your application and send you feedback. We may suggest a meeting to talk through your application.

Once the forms have been completed and any recommended changes made, CeLSIUS will submit your application on your behalf.

*Please do **not** submit your own application as ONS has specified that applications to use the ONS LS must be submitted by CeLSIUS.*
