4. Mandatory Training Policy (1-04)

- 4.1. Ms Lorren Rea, Head of Employment Policy presented the mandatory training policy. The following points were made during the presentation:
 - a. The policy document will ensure mandatory training is reported upon.

- 4.2. The following points were raised in discussion:
 - a. It was raised whether Post graduate students would be included in the autoenrollment. However, as they are not employees they would not be auto enrolled. The training of post graduate student would be in the doctoral mandatory training scheme. Although if they were to become employed for example in a teaching assistant role, they would be auto enrolled.
 - b. It was raised that Vice Provost Research, Innovation & Global Engagement (VP RIGE) was not consulted, and work needs to be undertaken to revise some of the wording in the policy in reference to the intellectual property training. It was agreed that this could be worked on with VP RIGE.

- c. It was suggested that it should be investigated whether this should cover PhD students. This will be taken away and considered whether it could be in scope and where it would sit.
- d. It was agreed that UCL could signpost mandatory training for contractors and consultants who are not employees but not monitor or report on these figures.

4.3. People and Culture Committee approved the policy once the update to the intellectual property wording has been agreed. Future versions of the policy should be brought back to the committee for approval.
