

FELLOWSHIPS: OPPORTUNITIES AND ELIGIBILITY

Notes: > This schema **does not include all potential fellowships** . Do look at GRANTfinder 4 Education <https://search.grantfinder.co.uk/education/Home>

> Some require preliminary applications (*)

> Some do not have upper and/or lower eligibility limits based on years experience (<--->)

> The majority of these Fellowships can be undertaken if you work part-time

> The majority of fellowships allow career breaks away from science (whether for reasons of parental leave, non-research jobs etc).

This will be added to the time window for eligibility; each funder has a different way of calculating this.

> Dedicated "career re-entry" fellowships are also available from Wellcome and Royal Society (Dorothy Hodgkin, 0-6yr post PhD)

> You can apply to a number of schemes (from different funders) in parallel
