

Roadmap to a Better Back

Better Backs

1

Early Advice

When pain starts, speak to your GP or a Health Professional to find out the best initial steps to take.

2

General Movement

It is important early on to stay active, maintaining functional movement through walking or light stretches.

3

Stress Management

Research suggests that CBT and Mindfulness can help to improve back pain by reducing unhelpful emotions around your discomfort.

4

Improved Sleep

A lack of sleep or poor sleep quality has been shown to 'increase the volume' of pain.

5

Specific Exercises

Complete specific mobility and strengthening exercises for a full recovery (at least 10 mins per day).

1. Lower Rotations

2. Pelvic Rolls

3. Sit to Stands

4. Four point Extensions
