

# CiC mediators biography:

CiC has a team of experienced Mediators all of whom have trained in Professional Workplace Mediation, accredited by the Mediator's Institute of Ireland and are registered members of the Civil Mediation Council.

Additionally, many of CiC's Network of Mediators are qualified psychotherapists which is an additional attribute as it means they are mindful of the psychological and physical wellbeing of all the mediation's participants. They are registered with BACP and UKCP. They have a wealth of expertise gained by their experience and training and are highly skilled at managing and identifying areas of concern and facilitating open exchange whilst remaining totally impartial.

CiC Mediators have supported organisations and institutions within both the public and private sector from Universities and Schools, to Law Firms, local councils, care trusts, International News Agencies and International Charities.

CiC is registered with the Civil Mediation Council, thereby ensuring that all their Mediators follow an appropriate code of conduct and are sensitive to diversity, equality and anti-discrimination and confidentiality issues.
