

Inaugural meeting of members – 2nd July 2013 in the new Institute.

21 members of the RFH PID Support Group attended the first meeting, held in the clinic waiting room in the new Institute. After being welcomed by Jose Drabwell and shown the new facilities, including the 'infusion ward', there was a broad ranging discussion that included:

- The importance of having a support group and a reliable website (recently launched)
- Future funding of the Group's activities
- Unique features of the RFH PID clinic (e.g. a psychologist as part of the clinical team), and how these might be protected
- Patient input into improving communication between the clinic and GPs

All thanked Marie Louise Chiew for her continuing support as Secretary to the Group, and Sarita Workman for organising the venue and refreshments.

The full Minutes of this meeting will be posted on this website when signed off.
