Introducing MySSy

My Safe System

My Special System

My Secure System

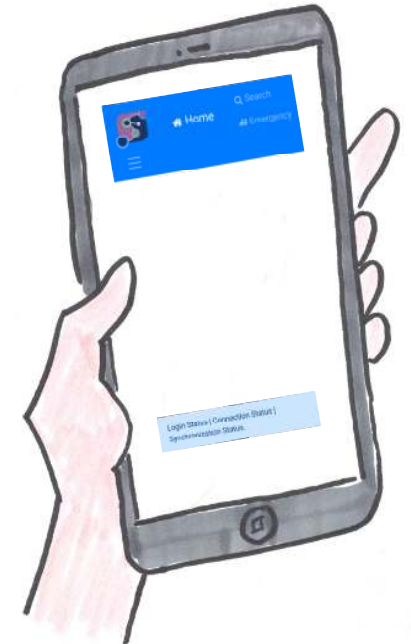

My Supporting System

My Sharing System

My Self System

MySSy is a research prototype of a new kind of Living Archives; a place for you to manage your info - especially records of your time in Care and beyond.

It has been built as an independent recordkeeping registry together with a mock integrated network environment

MySSy – Sharing personal information and other records

Controlled Sharing

Records are stored and served by the registry server with the sharing controlled by

- setting an audience tag and expiry time,
- optionally requiring a security code for access; and
- optionally including a customizable consent notice or terms of sharing.

Share online view

Share with: Friends

Giving a name here, will let you see how many times this share has been viewed.

Viewing time: ☐ 1 Day ☐ 1 Week ☒ 1 Month ☐ For Ever ☐ Until Custom Date

How long do you want this view to be available?

Need access code? ☒

Protect view with a secret access code?

Consent Notice ☒

Include your permission to view the info?

Consent text: You have been given permission to view this information only. You may not make copies or

Use this permission statement or enter your own

Access code: 5tnj1z

<https://server.rirproject.info:8443/attachment/getExternal/64ecd6b-931a-4a8b-aa70-e814dff09ecf>

QR code

Right click (on computer) or hold (on phone) to save.

Close

When a controlled share is created, the URL is shown as a string and as a QR code.

The record is displayed as an encoded image – the only way to obtain a copy is to screenshot the browser displaying the record, or (with some programming skills) reverse engineer the encoded image.

You can track the access history of any share and extend or cancel as you need to.

MySSy – Registering Records

Register Record Holding Sites

Locate and track the organisations that hold records about you.

Record holding sites may be found by browsing and/or searching.

In searching you can choose to ignore sites that may have unpleasant memories and associations that you don't want to deal with.

Find records
Search for record holding sites or see a list of all sites. Register sites of interest. Locate records, and register those.

Registered sites

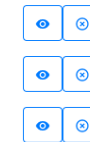

- Department of Human Services** A mockup Department of Human Services
- VicCare** A mockup agency server: VicCare
- Thrive!** A mockup agency server: Thrive!

Grace Tame: the Morrison Government still doesn't get it when it comes to women's issues

On RN Breakfast with Fran Kelly

Share

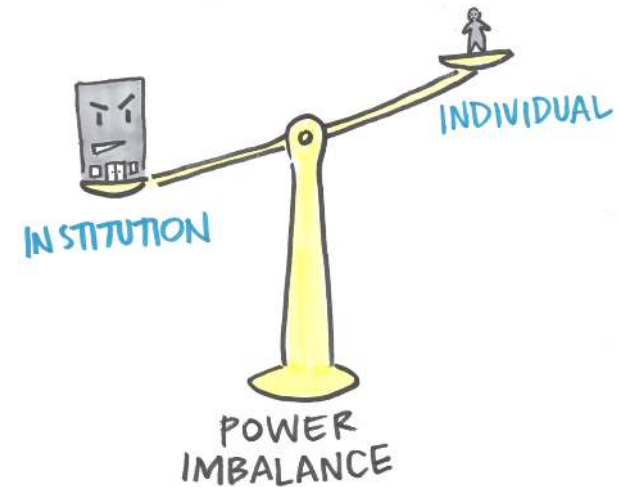

Download 11.80 MB

There are concerns that the voices of victims and survivors are not being listened to at the Federal Government's Women's Safety Summit.

Australian of the Year, Grace Tame, says while she had hopes that the conference would facilitate change, the actions of the Morrison Government prove that they still "don't get it".
