

## INFORMATION SHEET FOR CHILDREN

Hello! My name is [X]. I study at UCL Institute of Education which is a University in London. I want to learn more about children and play. I am interested in how children use different languages when they play, why they do this and what do teachers think of this.

I will be visiting your class two to three times every week. You will often see me writing notes about how you talk when you play.

I hope to video record you at play time using a camera like this. The videos will help me learn more about how you play. I will do this once a week when I visit your class. Whatever you say to me will be kept safe. Nobody is going to know about your name or your school. Nobody will see the video recordings except for me.

Sometimes you may not want to talk to anyone or do not like to be in a video recording. This is OK. You do not have to talk or be videoed if you do not want to. When you say yes to being in the video and later change your mind, this is fine too. You can say 'No' if you no longer wish to take part in the project.

Feel free to ask me or your teacher any questions you have and we will be happy to answer.

You may wish to talk with your parents about whether to take part in this study. If you decide not to take part it is fine.

Please tick or color below:

YES

NO

Do you want to take part?

May I write about you?

May I record you during playtime using a video camera?

Thank You! 😊
