

# DEMENTIA Consortium ROADSHOW

Thursday 19 September 2019  
NCVO, London

## The Dementia Consortium - Funding Target Validation and Early Drug Discovery

- 3.00-3.15 **James Connell** - Alzheimer's Research UK  
The Dementia Consortium – partnering academia with industry
- 3.15-3.20 **A representative of Astex Pharmaceuticals**  
An overview of Astex, FBDD and collaborations
- 3.20-3.25 **A representative of Evotec**  
Title TBC
- 3.25-3.30 **TBC**

## A Snap-Shot of Dementia Research Themes

- 3.30-3.45 **Magda Bictash** - The Alzheimer's Research UK UCL Drug Discovery Institute  
Fit for purpose - opportunities and challenges for drug discovery in academia
- 3.45-4.00 **Selina Wray** – University College London  
Understanding heterogeneity in familial Alzheimer's disease using patient-derived stem cells
- 4.00-4.15 **Helene Plun-Favreau** – University College London  
Mitophagy, from genetics to biology and back
- 4.15-4.30 **Noemi Esteras Gallego** – University College London  
Mitochondrial ROS control glutamatergic signalling in tau-induced frontotemporal dementia
- 4.30-4.45 **Marc Busche** - UCL Dementia Research Institute  
Opposing effects of Abeta and tau on neuronal excitability in Alzheimer's Disease

Registration for this event is free but must be made in advance by completing the following online form:
