

## “New Frontiers in CSF Research” Symposium

Thursday, 13<sup>th</sup> February 2020

12:00 – 16:00

No. 33 Queen Square Lecture Theatre

<b>12:00-12:30</b>	<b>Refreshments and registration</b>	
<b>Session #1:</b>	<b>Biology and Physiology</b>	
12:30-12:40	Welcome address	Rob Brownstone, UCL
12:40-12:55	Queen Square Hydrocephalus practice	Laurence Watkins, National Hospital for Neurology and Neurosurgery
12:55-13:15	Neurodegeneration and CSF	Claire Leckey, UCL
13:15-13:45	Elevated ICP: could it be managed pharmacologically?	Nanna MacAulay, University of Copenhagen
13:45-14:00	Open discussion	
<b>14:00-14:15</b>	<b>Break</b>	
<b>Session #2</b>	<b>Physics and Engineering</b>	
14:15-14:30	What we don't (but should) know about hydrocephalus	Ahmed Toma, National Hospital for Neurology and Neurosurgery
14:30-14:45	Intracranial pressure	Linda D'Antona, UCL
14:45-15:15	Macro and micro approaches to study the circulation	Stavroula Balabani and Vanessa Diaz, UCL
15:15-15:30	Open discussion	
16:00	Closure	

UCL Queen Square Institute of Neurology  
Queen Square, London WC1N 3BG
