## Neurology 2019: leading edge neurology for the practising clinician

It is our pleasure to enclose details of sponsorship opportunities for the above course. This is a two-day meeting, held annually and is one of the highlights of the British Neurology calendar. The course aims to provide a ***comprehensive update on the practical management of neurological diseases***.

We anticipate around 300 delegates, largely Consultants and senior clinical trainees in neurology and other neuroscience specialties. The registration fees are kept low

The emphasis of the course is on modern treatment and management approaches in the clinical setting, both routine and specialist. The course is taught via lectures, video sessions, a CPC and a debate, and intends to be didactic but also entertaining and informative. The faculty consists of largely Queen Square clinicians who are the British leaders in their fields. A central feature too is our annual 'Prize' lecture in which a high profile speaker from Queen Square will give a talk.

Features include:

- Prize lecture
- A Satellite
- A CPC session
- Clinical Case discussion
- MRI quiz

The programme and the sponsorship opportunities are found on the following pages.

We do hope you will be interested in assisting with sponsorship support for the meeting, and we would be happy to discuss options and requirements at any time.

Please contact Dr Tabish Saifee ([t.saifee@ucl.ac.uk](mailto:t.saifee@ucl.ac.uk)) for any queries or further information.

We do hope this will be of interest, and look forward to hearing from you.

Yours sincerely

Professor Michael Hanna (Director, Institute of Neurology)  
Dr Tabish Saifee (on behalf of the organising committee)

## Thursday 28 March 2019

Time	Title	Speaker
9am	Registration and coffee	-
