SAN DIEGO MEETING

Unfortunately this was not very well attended, partly because the venue for the Reception/Dinner was some distance from the Conference site. However those who did attend found it a convivial occasion and our thanks must go to Dr. Igor Grant, the local organiser and to Dr. Michael Finkel and Dr. John Steiner, both of whom have contributed so much to the Alumnus Association.

NEW YORK MEETING 1993

The 1993 American Academy meeting will be held in New York, and arrangements are already being considered for a Reception to be held in conjunction with this. We plan to arrange for this to be held within the Conference site. Further details will be published in the December Newsletter.
