

Restore Your Files or Folders on Windows 10

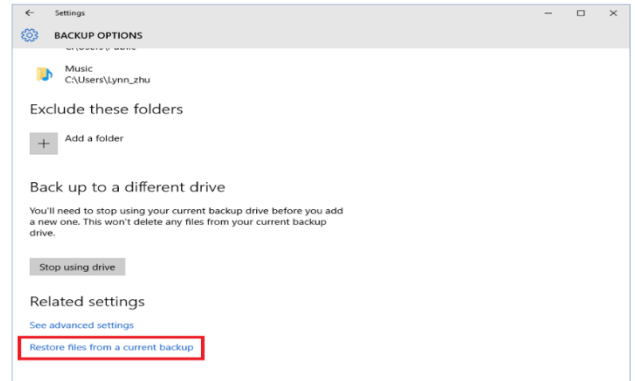

5 steps to restore your files and folders

1. Select the **Start**  button, select **Settings**  > **Update & security** .

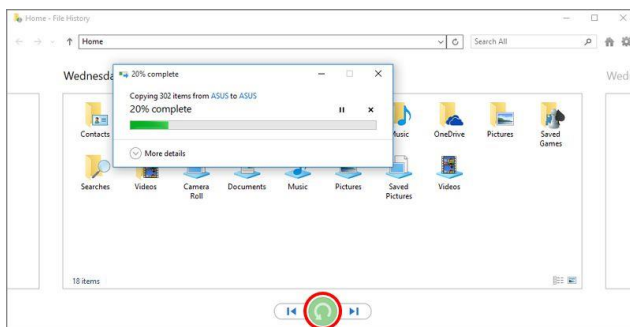

2. Select **"Backup"**. From the *Back up using File History* screen, Select **"More options"** button.

3. Scroll down the screen and Select **“Restore files from a current backup”**

4. **Enter the name** of file you're looking for in the search box, or use the left and right arrows to browse through different versions of your folders and files

5. **Select** what you want to restore to its original location, and then tap or click the Restore button.
