

IRIS Profile View

In this document we will be looking at the information you can view on any IRIS Researcher profile and the various tabs available..

Let us start with the main profile view of a researcher:

1. The Profile Tab

The default view of any researcher profile starts with the Profile Tab:

Profile	Publications	Research Activities	Funding	Students	Achievements
Appointment Head of Research IT Applications (Service Owner) Research IT Services Information Services Division			Joined UCL	26/09/2011	

Figure 1

Upon searching for and selecting a researcher, you will be presented with a page similar to that of **Figure 2**. There will be 6 distinct tabs that can either be edited manually, by an automated feed or a mixture of the two.

The Profile tab contains 7 distinct fields, some of which are manually entered and some are fed through other systems.

1) Appointment

The Appointment section represents the roles the researcher has been appointed at institutions other than that of University College London.

This section is **modified/updated by HR (Resource Link – Automatic Feed)**

Profile	Publications	Research Activities	Funding	Students	Achievements
Appointment Head of Research IT Applications (Service Owner) Research IT Services Information Services Division			Joined UCL	26/09/2011	

Figure 2

2) Joined UCL

The 'Joined UCL' section as the name suggests is the date at which the researcher had officially come under the umbrella of University College London.

This section is **modified/updated by HR**.

3) Biography

The Biography section is a **user-input (manual)** section that can be used to give a little background information about the researcher in question.

This section can be reached by the user (or an authorised administrator) by clicking on the “Edit This Profile” button, next to the user’s profile picture.

4) Research Themes

The Research Themes section is another **user-input (manual)** section that associates the Researcher with a series of predefined subject umbrella’s that are not mutually exclusive, but show the breadth of crossovers in a particular individual’s research focus.

5) Research Summary

The Research Summary section as the name suggests is a simple text box that allows the user to give a summary of their latest work/achievements/goals. This section is a **user-input** field.

6) Teaching Summary

The Teaching Summary section (much like the Research Summary above) is a non-mandatory text field that can outline the Researcher’s teaching posts. This section is also a **user-input** field.

7) Academic Background

The Academic Background shows the year, type and institute of an educational qualification. However, it does not show the subject area!

This section is **modified/updated by HR**.

2. The Publications Tab

The Publications Tab works much like a hybrid search result and sort.

By this I am referring to the “Display by” ordering headings (Title, Type & Year)

This tab is automatically populated by RPS on a nightly update. Issues with the data are reflections of RPS.

Upon entering the publications tab, the default view would present itself:

Profile Publications **Research Activities** Funding Students Achievements

1 - 10 of 264 Publications Pages 1 2 3 4 5 ... 27 Results Per Page 10

Display by: Title Type Year

Publications without a recorded date

GONZALEZ BELTRAN, A., Tagger, B., & Finkelstein, A. (n.d.). *Ontology-based Queries over Cancer Data*.

Lim, S. L., & Finkelstein, A. (n.d.). *StakeRare: Using Social Networks and Collaborative Filtering for Large-Scale Requirements Elicitation*. *IEEE Transactions on Software Engineering*.

2013

Finkelstein, A. C. W. (2013). *Valve: an electrical romance*. In M. Carnall (Ed.), *Conversation Pieces: Inspirational objects in UCL's historic collections* (pp. 22-23). Oxford, UK: Shire Publications Ltd.

2012

Hetherington, J., Sumner, T., Seymour, R. M., Li, L., Rey, M. V., Yamaji, S., . . . Warner, A. (2012). *A composite computational model of liver glucose homeostasis. I. Building the composite model*. *J R Soc Interface*, 9 (69), 689-700. doi:10.1098/rsif.2011.0141

Several Options are available to you at this juncture:

- i. By Clicking on “Year”, you are able to sort in ascending/descending order the items have been published.
- ii. By Clicking on “Type”, you are able to sort (ascending/descending) groups of items, alphabetically (i.e Chapters, Conference, Journal Article, etc...).
- iii. By Clicking “Title”, you are able to sort (ascending/descending).
- iv. You are also able to flick forward/backwards using the arrows if there are multiple pages of results. And you are also able to increase the number of results per page.

The Research Activities Tab

The Research Activities Tab shows a list of Research Projects that the Researcher may currently be associated with. This tab is also a **user-input** tab.

Profile Publications **Research Activities** Funding Students Achievements

1 Research Activities	Status
The Managed Research Facilitates Project	Active

Up until recently editing this section required jumping to an older version of IRIS, though this has now been resolved and the option appears as shown below:

The Funding Tab

The funding tab is a **read-only** tab that shows the details of funding received for specific research/tasks.

Note: If you find that the Funding tab is missing or that you only have 4 tabs, this is primarily due to the fact that you have been logged out of IRIS or that you only have basic viewing rights.

The funding can be awarded to a researcher as either a Principal Investigator, Co-Investigator, Award Manager or Equivalent.

- The Principal Investigator is the term given to the lead scientist/researcher for a particular well-defined research project.
- The Co-Investigator is therefore one member of a team of researchers.
- The Award Manager is a term given to the person in charge of distributing the funds to a team of researchers or a group of projects.

Profile	Publications	Research Activities	Funding	Students	Achievements
Externally Awarded					
Number of Awards		3 as Co-Investigator			
Total Funding					
Awards listed below where <input type="checkbox"/> Principal Investigator, Award Manager, Co-Investigator or Equivalent					
<input type="checkbox"/>	Establishing An Advanced Imaging Facility For Neuroscience				Co-Investigator
<input type="checkbox"/>	Selective Targeting Of Synapses To Specific Dendritic Locations And Their Modulation By Voltage-Gated Channels				Co-Investigator
<input type="checkbox"/>	Trak-Mediated Neuronal Mitochondrial Trafficking Mechanisms: Regulation And Impact On Neuronal Function				Co-Investigator
Number of Awards		6 as Award Manager			
Total Funding		£1,524,310.77			
Awards listed below where <input type="checkbox"/> Principal Investigator, Award Manager, Co-Investigator or Equivalent					
<input type="checkbox"/>	En-E3 Irphrcstp - Investigating The Role Of Pre-Synaptic Hcn1 Channels In Regulating Cortical Synaptic Transmission And Plasticity				Award Manager
<input type="checkbox"/>	En-R5 To Identify Neurons Expressing Presynaptic Hcn Subunits Ni The Entorhinal Cortex				Award Manager
<input type="checkbox"/>	First Gordon Research Conference Of Mechanisms Of Epilepsy And Neuronal Synchronization				Award Manager
<input type="checkbox"/>	Kcnq And Hippocampal				Award Manager
<input type="checkbox"/>	Role Of Axonal Kv7 Channels In Regulating Hippocampal Granule Cell And Mossy Fibre Excitability				Award Manager
<input type="checkbox"/>	The Role Of Lh In The Entorhinal Cortex During The Latent Period				Award Manager
Other					
Number of Awards		3 as Recipient			
Total Funding		£495,000			
<input type="checkbox"/>	Dendritic Hyperpolarization-Activated Cation Channels In Entorhinal Cortical Neurons And Temporal Lobe Epilepsy				Recipient
<input type="checkbox"/>	Understanding The Effects Of Hcn Channel Modulators On The Latent Period Duration In A Rat Model Of Epilepsy				Recipient
<input type="checkbox"/>	School Of Pharmacy Ph.D. Studentship				Recipient

The Students Tab

The Student tab shows details of any student that the researcher in question is acting in a supervisory capacity to. This is a **read-only** tab.

Profile	Publications	Research Activities	Funding	Students	Achievements
As First Supervisor					
<input type="checkbox"/>	MOHAMMED ADIL BUTT				
Department	Division of Surgery and Interventional Science				
Faculty	Faculty of Medical Sciences				
Programme	Research Degree: Division of Surgery & Intervn Sci				
Route	Research Degree: Division of Surgery and Interventional Science				
Start Date	12/04/2011				
Expected End Date	11/04/2018				
Expected Award	Master of Philosophy				
Funding	NONE				
<input type="checkbox"/>	REHAN JAMIL HAIDRY				
Department	Division of Surgery and Interventional Science				
Faculty	Faculty of Medical Sciences				
Programme	MD(Res) Clinical Research				
Route	MD(Res) Clinical Research				
Start Date	31/05/2011				
Expected End Date	30/05/2015				
Expected Award	Doctor of Medicine (Research)				
Funding	NONE				
Please report any queries concerning the student data shown on this page to the Portico					

The Achievements Tab

The Achievements tab allows the Researcher to include any other memberships and affiliations that can elevate a profile. Often memberships to a society, or taking up a post of office can be included in this section.

This is a [user-input](#) tab.
