ContactPortal SEMAP+ Help

### ContactPortal

The ContactPortal uses advanced speech recognition technology to help you to manage your telephone calls.

- **Choose where your incoming calls go**  
To your desk phone, mobile phone, voicemail or any other number
- **Be notified when you miss a call**  
Receive an email or text message to tell you that you have missed a call or received a message
- **Screen incoming calls**  
So that you can decide whether to answer them or send to voicemail
- **Dial by name**  
No need to remember telephone numbers - just say the name of the person you want to speak to
