

**MATH0084 Project in Mathematics**  
**Project presentation mark scheme 2020-21. (Online presentations)**

**Name of student:**

**Examiners present:**

Each of the three sections should be marked out of 10, taking into account the various points in each section.

**Note that questions should be asked at the end of all presentations.**

The mark scheme is:

(10-9) Excellent, (8-7) Very good, (6) Good, (5) Acceptable, (4 and below) Unsatisfactory.

**1. Content and level of understanding:**

- Was the subject of the project/problem explained, motivated and put into context?
- Did the presentation include original results or difficult material?
- Did the student have a good understanding of their material and display a depth of knowledge about their subject?
- Was the student able to give reasonable, accurate and thoughtful answers to questions?

( /10)

Any remarks:

**2. Organization and structure of the talk:**

- Was the amount of information on each slide and the number of slides appropriate?
- Were the slides / figures / diagrams / expressions easily readable and informative?
- Was the order in which information was presented logical and helpful for the audience?

( /10)

Any remarks:

**3. Oral presentation:**

- Did the student speak clearly and at a good pace?
- Were the technical points explained in an intelligible manner?
- Did the student explain what they were showing in their slides / figures / diagrams?
- Were the results, conclusions or interpretations explained clearly?

( /10)

Any remarks:

**Total mark:**

**/30**

**Any comments for feedback:**
