Organic Synthesis - LOS

Spa 2009

Information

The 13th **SIGMA-ALDRICH** Organic Synthesis Meeting will take place at the Sol Cress Recreation & Conference Centre in **Spa**, the same location as last year, on Thursday 3rd (start: 10.00 h) and Friday 4th of **December 2009** (end: 16.00 h). The programme will include plenary lectures, a series of about ten 30-min lectures presented by experienced PhD or postdoctoral students of our different research institutions, and a poster session. Dr. Bruno Linclau, School of Chemistry, (University of Southampton) will also join us with some of his students and deliver a plenary lecture. It is an exceptional pleasure for us to further welcome Professor Paul Knochel from the Ludwig Maximilians Universität (Munich) and Prof. Goverdhan Mehta from the Indian Institute of Science as special guests who will both deliver a plenary lecture. On Thursday evening there will be a special lecture given by Prof. Chris **McManus** (University College London), writer of the famous book 'Right Hand, Left Hand'. This will then be followed by a walking dinner in the style of Tarzan and Jane in the Jungle! Thus, we invite (oblige) everyone to dress up accordingly. A price for the most original/creative/funny outfit will be awarded at the end of the symposium by **Sigma-Aldrich!**

Date

- Start: Thursday 3rd of **December 2009** (10 AM)
- End: Friday 4th of **December 2009** (4 PM)

Location

- Spaloumont, 5 | B-4900 **Spa** - Belgique
- Tél. 087 77 23 53 - Fax 087 77 48 93
