Introduction

UCLMS expects the highest standards of conduct and professionalism from staff and medical students and takes a zero-tolerance approach to harmful behaviours and discrimination of any kind. UCLMS works within UCL and NHS policies in place at our clinical providers to protect staff and medical students from unacceptable behaviour at the university and during clinical placements.

We understand that raising concerns can be challenging for students and our aim, through this guidance, is to signpost students to UCL's Report + Support platform for concerns about students and university staff members, create transparency about how concerns about NHS employees are managed, and set out how UCL Medical School seeks to support students through UCL and NHS procedures to ensure that medical student concerns are heard and addressed through the most appropriate channel. At the MBBS Quality Assurance and Enhancement Unit (QAEU), we aim in particular to manage concerns raised by medical students regarding NHS staff who contribute to the MBBS programme, providing a bridge between the University and NHS Placement Providers and NHS employees who contribute to MBBS teaching. Concerns raised with the QAEU do not automatically result in formal action, but medical students will be provided with support and guidance to make a formal case if they wish to.

Effective and supportive mechanisms for raising concerns during clinical training would not be possible without the invaluable contributions from the Senior Leadership Team, Student Support Services and the Equality, Diversity and Inclusivity Group. We also wish to thank our MBBS Undergraduate Site Leads for their support, without which, we would not be able to formulate and implement these steps to protect our students.

Guidance

1. Scope of Guidance

The scope of this guidance covers any concerns about harmful behaviours including Gendered Violence (GV) reported to the Medical School through UCL's Report to Support Platform or raised through the UCLMS Raising Concerns Platform by medical students, described here as the 'Reporting Party', about members of staff employed by UCL or UCLMS' clinical providers or patients at UCLMS's clinical providers, 'Reported Party', regardless of the location of the incident, including social media. The guidance draws on UCL terminology for gendered violence, which is also known as Gender-Based Violence (GBV).

UCL's Report + Support Platform is designed to facilitate the reporting and management of harmful behaviours by university staff and students. Incidents involving staff are directed to the appropriate departmental manager, who, for the majority of staff who contribute to the MBBS, will be outside the Division of UCL Medical School. Should a concern proceed to a formal stage, investigation is conducted under UCL's Staff Grievance Procedure. Incidents involving students are directed unedited to the MBBS Divisional Tutor and concerns which proceed to a formal stage are investigated under UCL's Student Disciplinary Procedure. This procedure falls outside the scope of this guidance (see section 1.4).

UCLMS' Raising Concerns platform is designed to facilitate the reporting and resolution of concerns that involve staff or events during clinical placements at NHS sites. Should a concern proceed to a formal stage, investigation is conducted under the procedures in place at each Placement Provider and may involve interaction with the GMC.

For simplicity of use we ask students in years 1-3 to use UCL's Report + Support Platform and students in years 4-6 to use UCLMS' Raising Concerns Platform and acknowledge that at times information will need to be shared between these 2 platforms or with the divisional tutor to ensure it is investigated appropriately.

QAEU aims to support students engaged in the staff-related procedures through review on an individual case basis and will liaise as needed across platforms, maintaining confidentiality within the teams above and informing the reporting party of this onward referral.

Concerns may be reported anonymously or with contact details. Choosing to report anonymously means we might not be able to help you directly and formal action cannot be taken. However, concerns can be logged to inform prevention work and may therefore help others. Choosing to report with contact details means we can provide advice and support about informal and formal approaches to resolution.

1.1 The Reported Party includes:

- Faculty members employed by UCL.
- All healthcare workers (Consultants, Doctors in training and SAS/LED Doctors, Nurses, Physiotherapists, Porters) at UCLMS' clinical providers including Trusts, GP practices and community placements.

1.2 UCLMS' GP and Trust Placement Providers, the largest of which are:

- Barnet Hospital
- Lister
- Luton & Dunstable
- North Middlesex
- Royal Free London & Royal Free London, Hampstead, Basildon and Chase Farm
- UCLH
- Watford
- Whittington

1.3 A list of key contacts at UCLMS is provided in on the raising concerns webpage: <https://www.ucl.ac.uk/medical-school/current-mbbs-students/qa-enhancement-unit/raising-concerns>.

1.4 Concerns raised by students against students are subject to [UCL's Student Disciplinary Code and Procedure in Respect of Students](#)¹. Medical Students may

discuss concerns with the QAEU team for advice about the process, however this procedure is managed through the Divisional Tutor's Office.

2. Dignity at Work and Professional Codes of Conduct

2.1 UCL employees are expected to adhere to [UCL's Prevention of Bullying, Harassment and Sexual Misconduct Policy](#), which sets out expectations of behaviour in the workplace and incorporates clear messages about zero tolerance towards harassment and bullying². UCL's institutional mechanism for students to raise concerns is through Report + Support and formal complaints are addressed through UCL's Staff Grievance Policy.

2.2 All healthcare workers are expected to adhere to the professional standards set out by their regulatory body. For healthcare workers and medical students this includes a professional responsibility to act with integrity and to raise and escalate concerns about bullying and harassment^{3,4}. UCLMS' Raising Concerns Platform provides the mechanism for medical students to raise concerns and to enable UCLMS to seek resolution informally or support medical students in submitting a formal complaint through the employer.

3. Raising Concerns

3.1 The first disclosure constitutes the Reporting Party sharing details of the concerning event, either verbally or through written communication. This can be between peers or with members of staff at UCL and UCLMS⁵ or with members of staff at the Placement Provider

3.2. At UCLMS, there are several options with whom the Reporting Party can make the first disclosure including:

- Student Support, CPP and Personal Tutors
- Director of Undergraduate Medical Education (Primary Care and Community)
- Year Leads
- Module Leads

QAEU At UCL, this includes:

- Dignity Advisors

- Report + Support
- Student Support and Wellbeing services

At Placement Providers this includes:

- Director of Undergraduate Medical Education (Central Trusts)
- Undergraduate Tutors
- Site Senior Tutors (Central Trusts)
- Personal Tutors
- Educational Supervisors
- Freedom to Speak up Champions

3.3 At the first disclosure, the Reporting Party should be encouraged to submit their concern in writing either to the QAEU through the ['Raising Concerns' form](#) or to [UCL Report + Support](#).

3.4 In the event that the concern is raised directly with the Placement Provider, we would encourage them to inform the Academic Lead for QAEU also.

3.5 The Reporting Party cannot be required to make a formal submission but in the event that the *disclosure relates to criminal activity, there is a duty of care for the details of the incident to be escalated to either UCL Report & Support or to QAEU*.

3.6 The QAEU is responsible for checking for Raised Concerns forms on a regular basis, excluding public holidays and university closures.

3.7 For all *non-anonymous* concerns, the QAEU Associate Lecturer and/or QAEU Manager will aim to meet the Reporting Party at a convenient date and time. The Reporting Party will have the option of either meeting remotely or face to face.

3.8 All *anonymous* concerns will be logged by the QAEU (Outlined in Section 8), with escalation depending on the nature of the concern raised (Outlined in Section 6).

3.9 A flowchart summarising the management of concerns is provided on p15 of this policy.

3.10A list of GV related concerns is provided in Appendix B.

4. Meeting Students

4.1 The main aim of the QAEU is to ensure that the Reporting Party is safe both physically and psychologically. While the events surrounding the raised concern will be explored in more detail during the initial meeting, the Reporting Party will also be directed to the appropriate resources for their care (Appendix A).

4.2 During the meeting, the next steps of managing the concern raised will be outlined and their point of contact at the QAEU.

5. Supporting the Reporting Party

5.1 The QAEU may consider that adjustments could be helpful in supporting the student, in which case this should be discussed with the Divisional Tutor, who will take the matter further if appropriate, liaising with relevant staff.

5.2 The QAEU will remain the central point of contact for all raised concerns. The Reporting Party will not be contacted directly by anyone outside the QAEU unless consent has been gained or there are safeguarding concerns (see below). The right to confidentiality is vital for the Reporting Party and therefore:

- any details that may need to be shared and with whom will be made clear to the Reporting Party prior to doing so.
- agreement for any adjustments to the student's programme of study/placements will be documented in ASR through the Medical Student Support Manager.

5.3 In exceptional circumstances, if it is considered that there is either a direct risk to the Reporting Party or to others, then information may be shared with the relevant parties for safeguarding purposes prior to informing the Reporting Party. This includes,

- Next of kin
- Police
- Mental Health Crisis teams
- HR Business partner and the Crime Prevention and Safety Officer at Central UCL
- Divisional Tutor

6. Escalation

This will depend on the nature of the concern raised and the role of the Reported Party and whether the concern is submitted as a formal complaint under the relevant Disciplinary Procedures. UCL Procedures require that informal resolution, where appropriate, is sought as a first stage and the Academic Lead for QAEU will lead the informal stages on behalf of UCLMS.

Harmful Behaviours

6.1 UCL Academic Staff

A meeting between the Academic Lead of QAEU and the Reported Party will be arranged to discuss the concern raised.

If the discussion confirms that conduct has fallen below the required standard and the concern is being managed outside of UCL's formal Disciplinary Procedure and this is the first concern raised about the Reported Party, the recommendation may suggest reflective practice. Awareness training including repeating Mandatory and Statutory Training (MAST) or EDI training may be recommended. The relevant Line Manager will be informed of the outcome.

If repeated patterns of behaviour are reported with no improvement despite previous recommendations, or if several concerns are raised about the Reported Party, then the QAEU will advise the student to submit a formal complaint and may recommend that the Head of the MBBS Programme requests the temporary removal of the Reported Party from MBBS educational activities pending the conclusion of the Disciplinary Process.

6.2 All healthcare workers

The concern raised will be discussed with the members of staff who act as UCLMS' representatives/MBBS Coordinators under Health Education England and UCL's contracts with Placement Providers:

- Trust Director of Undergraduate Medical Education
- Undergraduate Tutor
- Director of Undergraduate Medical Education for Community and Primary Care

These Placement Leads are responsible for managing concerns raised outside of formal Disciplinary Procedures, for liaising with the relevant Placement Provider Workforce personnel responsible for managing complaints raised formally under Disciplinary Procedures, and for liaising with the Academic Lead for QAEU and the Reported Party.

If the discussion confirms that conduct has fallen below the required standard and the concern is being managed outside of the Placement Provider's formal Disciplinary Procedures and this is the first concern raised about the Reported Party, the recommendation may suggest reflective practice. Awareness training including repeating Mandatory and Statutory Training (MAST) or EDI training may be recommended. The Placement Provider's Workforce personnel will be notified of the outcome and asked to include a review of conduct in annual appraisals.

If repeated patterns of behaviour are observed with no improvement despite previous recommendations, or if several concerns are raised about the Reported Party, then the QAEU will advise the student to submit a formal complaint and liaise with the student and the Placement Provider's representative to facilitate this and may recommend that the Head of the MBBS Programme requests the removal of the Reported Party from MBBS educational activities pending the conclusion of the Disciplinary Process. Formal notification to the Academic Lead for QAEU of the conclusion of the Disciplinary Process and outcome will be requested.

Gendered Violence

6.3 UCL Academic Staff

The Academic Lead for QAEU and the MBBS SLT will be alerted and the involvement of the Police will also be considered, with the consent of the Reporting Party.

All gendered violence (GV) concerns will be escalated in line with UCL policies through the relevant HR Business Partner, Employee Relations Manager and the [Crime Prevention and Personal Safety Adviser](#).

Precautionary measures that may be implemented at this stage include

- No contact arrangements- this is to create safe spaces where neither party will risk encountering each other.
- Temporary exclusions- the Reported Party may be excluded from certain events on campus.
- Suspension.

6.4 All healthcare workers

The Academic Lead for QAEU, SLT, Trust/Community and Primary Care representatives and the relevant Medical Director will be alerted. The involvement of the Police will also be considered.

- All gendered violence concerns will be escalated to the relevant Workforce Lead (e.g., Head of Corporate Services, Chief People Officer) and Responsible Officer. These will be managed as per local Trust policy.
- A timeline for managing the concern raised will be agreed with ongoing communication between the relevant parties
- Formal notification to the Academic Lead for QAEU of the conclusion of the Disciplinary Process and outcome will be requested.

Precautionary measures to protect the medical student that may be implemented at this stage via the relevant NHS Workforce Lead (e.g., Head of Corporate Services, Chief People Officer) or Managing Partner in a GP Practice include:

- No contact arrangements- this is to create safe spaces where neither party will risk encountering each other.
- Temporary exclusions- the Reported Party may be excluded from certain MBBS teaching or placement-based activities.
- Suspension.

6.5 In the event of *gendered violence concerns involving either UCL academic staff or healthcare workers*, if the Reported Party leaves their post and takes up employment with another HEI, Hospital Trust or GP Practice then information on both outcomes and sanctions, where it is appropriate to do so and the case was substantiated would be shared, in accordance with data protection legislation⁶.

6.6 Patients

The Academic Lead for QAEU, MBBS SLT, relevant Placement Representatives, Medical Director, Responsible Officer and the relevant Workforce Lead will be alerted and the involvement of the Police will also be considered for all GV concerns relating to patient conduct.

Precautionary measures that may be implemented by the clinical providers at this stage include:

- No contact arrangements - this is to create safe spaces where neither party will risk encountering each other.

7. Follow-up with Reporting Party

7.1 The QAEU will be responsible for maintaining regular contact with the Reporting Party during the process. This includes communicating timelines in the management of the concern raised with the Reporting Party and when investigations or Disciplinary Procedures have concluded.

7.2 The QAEU will not provide details of outcomes to the Reporting Party. This is to protect the Reported Party's right to confidentiality.

7.3 In the event that the Reporting Party is unhappy with the outcome of informal measures taken under this policy outside of formal Disciplinary Procedures, they will be directed to either the

- Student Mediator (University employees)
- Medical Director at the relevant site for healthcare workers (NHS employees).

7.4 For all *anonymous concerns* raised, follow up and feedback will not be possible by the QAEU.

8. Governance

8.1 All concerns raised will be logged under a unique ID by the QAEU.

8.2 The log of concerns will be kept updated and maintained by both the Manager and Associate Lecturer in QAEU.

8.3 The log of concerns along with the individual reports for each case will be kept in a restricted folder on the S Drive.

8.4 UCLMS members with access to the restricted folder on the S Drive include members of the QAEU, Director of the Medical School, Head of MBBS Management and Head of MBBS Management CPP and QAEU.

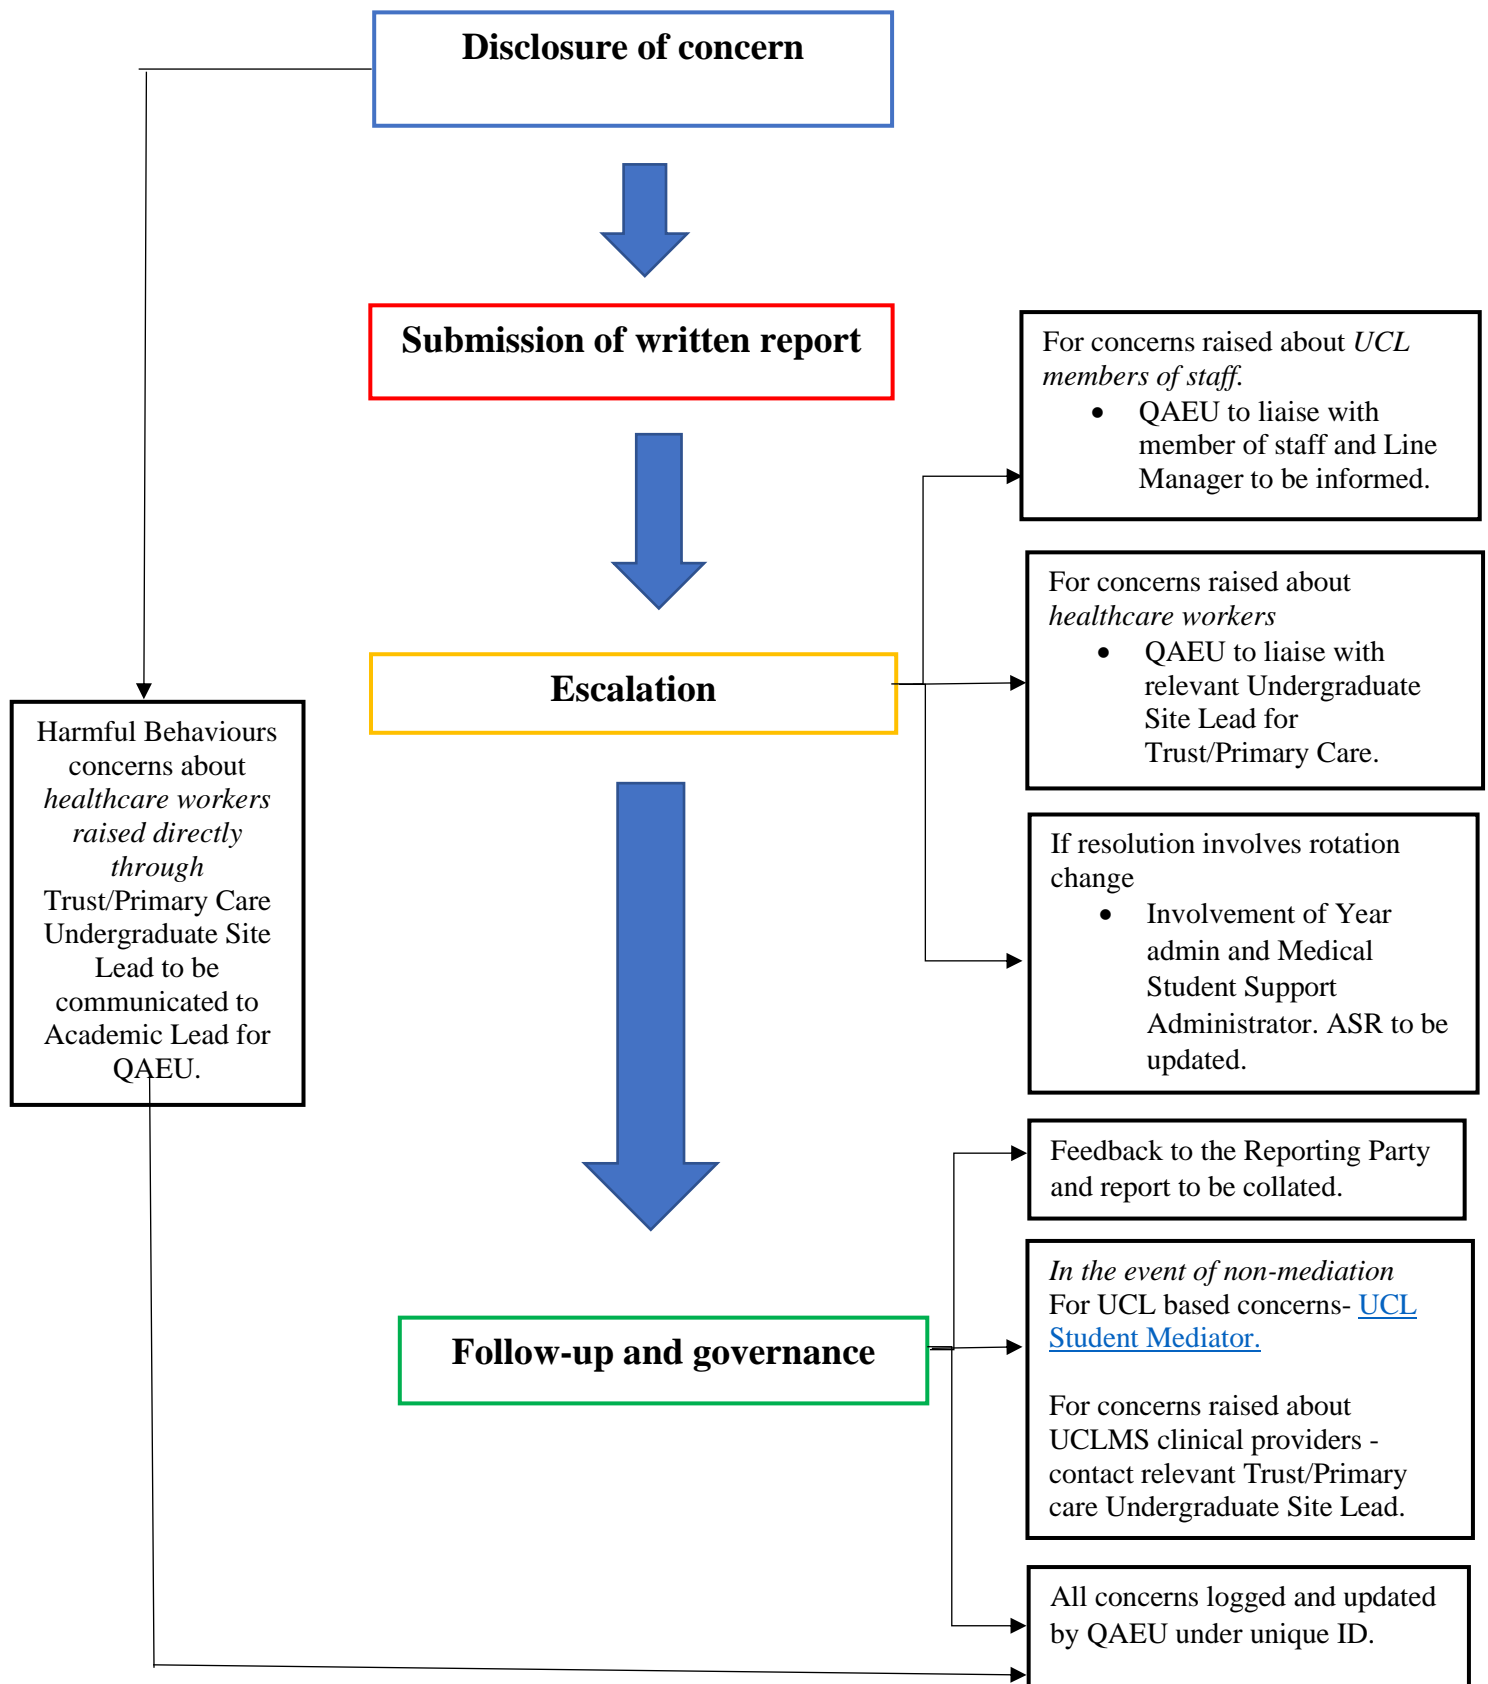

8.5 The QAEU and SLT will meet regularly to ensure that all concerns are being addressed and to explore further areas of interventions.

8.6 The QAEU will have meetings every term with the UCL Report + Support Administrator to discuss pan-collaborative initiatives for tackling concerns both centrally and at UCLMS.

8.7 An anonymised summary of all the concerns managed by QAEU for the previous Academic Year will be presented at the Term 1 mQMEC meeting.

Appendix B: Concerns related to GV⁷

- *Non-consensual sexual contact*: sexually touching another person without their consent.
- *Non-consensual sexual act*: engaging or attempting to engage in a sexual act with another person without their consent.
- *Sexual harassment*: any conduct of a sexual nature that is unwanted, including verbal, non-verbal and physical behaviour, which violates the recipient's dignity or creates an intimidation, hostile, degrading or offensive environment; this could be one incident or a pattern of behaviours. This definition represents the definition of sexual harassment under the Equality Act 2010 (Whitfield, 2018).
- *Online sexual misconduct*: The following examples of online sexual misconduct use definitions offered by Universities UK (2019a).
 - Cyberstalking: repeated and deliberate use of the internet and other electronic communication tools to engage in persistent, unwanted communication intending to frighten, intimidate or harass someone, or to spy on someone.
 - Image-based sexual abuse: (also known as 'revenge pornography') recording or sharing sexual or intimate photos or videos, without the consent of the person pictured.
 - Up skirting: filming or photographing under a person's clothes without their consent to capture images of their body or underwear.
- *Stalking*: persistent, unwanted communication or behaviour intending to frighten, intimidate or harass someone such as repeatedly following them.
- *Relationship abuse*: any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those who are, or have been, intimate partners; this may include psychological, physical, sexual, financial and/or emotional abuse.
