

UCLMS QAEU NEWSLETTER

Quality Assurance and Enhancement Unit's new monthly newsletter so you can find out what is happening in QA and feedback at UCLMS! If you want to get more involved email us or your academic VP.

LEARNING SURVEYS

The Learning Surveys are now into their second year. In 2022-23 we had almost 3000 submissions, and we've already had over 750 forms submitted this academic year.

Based on your feedback the platform has been updated over the summer to improve the UXD, add targeted questions for certain years or sites, and to add the new comparison feature that allows you to compare placement scores across sites or modules.

As requested, Year 1+2 students now have time allocated after each CPP session for student led reflection and feedback - please use these opportunities to complete learning surveys too. The learning surveys are standing items for discussion at all MMG and TSC meetings so make sure your ideas and feedback are represented!

MEET YOUR STUDENT REPS

Welcome to the 2023-24 RUMS Committee and all of the new student representatives, including your Academic VPs who run the student rep programme:

- Bianca Emmerich - Years 1-3 (R)
- Kiran Flora - Years 4-6 (L)

Find details for all of the MBBS Student Representatives on our QAEU website.

NEW UCLH TEACHING ROOM

The first of two new teaching rooms has opened to students placed at UCLH in September - extra teaching space was requested at the site visit last year.

Lastly, **the annual reports** on student feedback will shortly be available on the QAEU website and provide a summary of themes identified in the learning surveys, as well as any action taken in response.

LEARN MORE ABOUT US AND HOW TO GET INVOLVED ON OUR WEBSITE

If you'd like to speak with us you can email medsch.qaeu@ucl.ac.uk, and you can submit a Report and Support (Y1-3) or Raising Concerns (Y4-6) form if you are concerned by something that has happened in the classroom or whilst on placement.
