

# UCL Grand Round 2022-23

Wednesday, 1pm-2pm  
(Lunch available from 12.30pm)

2<sup>nd</sup> floor Seminar Room, Rayne Building, 5 University Street

Date	Presentation 1	Presentation 2	Chair
7 September	Respiratory <b>'Long COVID'</b> Melissa Heightman	A&E <b>'A young patient with back pain: is the NICE guidance still appropriate?'</b> Eduard Deda ACP, William Hull FY2, Karthik Kannapanan ST6 EM Supported by: Dipak Mistry, ED Cons.	Sam Janes
14 September	Maternal Medicine <b>'The consequences of a false negative result!'</b> Bethan Goulden	Gastroenterology <b>Who needs hospital anymore? Non-invasive diagnosis of bowel cancer</b> Edward Seward	David Williams
21 September	ENT <b>'Hearing &amp; Deafness - why it matters and what we can do'</b> Joseph Manjaly	Urology <b>'Digital care after discharge'</b> John Kelly	Martin Forster
28 September	Rheumatology <b>'Targeting B cells to treat autoimmune disease - 25-year experience from UCL'</b> Venkat Reddy	Tropical Medicine <b>'Monkeypox, Public Health Emergency of International Concern'</b> Tommy Rampling, Clare Warrell and Michael Marks	Mahdad Noursadeghi
12 October	Cardiology <b>'A brainstorming journalist who got into a twist'</b> Pier Lambiase	Oncology <b>'A case of homologous recombination deficient ovarian cancer: refining a predictive biomarker?'</b> Dr. Michael Flynn	Daniel Hochhauser
19 October	Ethics <b><i>"If you can look into the seeds of time and say which will grow and which will not....." (Macbeth Act 1)</i></b> <b>Is neonatal whole genome sequencing the way forward?</b> David Katz and John Wyatt, together with Robin Lachmann		Mike Ehrenstein
26 October	Medical Education <b>'Mental health of medical students and post-graduate trainees: Causes and consequences.'</b> Antonia Rich, Asta Medisauskaite, Rowena Viney		Coziana Ciurtin
9 November	Transplant <b>'Minimisation of Immunosuppression – Time for Precision Medicine in Kidney Transplantation'</b> Professor Reza Motallebzadeh	Breast Cancer <b>'Breast cancer - radiotherapy during lumpectomy is the least disruptive treatment for the patient and improves their length and quality of life.'</b> Jayant Vaidya	David Williams
16 November	Vascular Surgery <b>'The role of carotid surgery in stroke prevention'</b> Mr Daryll Baker	Geriatrics <b>'An unusual case of a high lactate'</b> Arshad Rather, Harry Knights, and Reece Patel	Lucie Clapp

23 November	Neurology <b>'Integrated Approach to Neuroscience in the Community'</b> Dr. Michelle Balaratnam	Histopathology <b>'From the ice age to the space age- a modern alternative to frozen section'</b> Dr Alman Haider (consultant Urological Pathology) Dr Ricardo Almeida Research fellow Prof Gregory Shaw (professor of Urology)	Robert Heyderman
30 November	Surgery <b>'Peripheral Nerve Injury/Brachial Plexus Injury'</b> Tom Quick & Hazel Brown	Stroke Services <b>'Neurology Same Day Emergency Care (Neurologists in AE...are you having a laugh?)'</b>	Sam Janes
7 December	AMU <b>'What you don't know about inclusion health (IH) patients'</b> Coziana Ciurtin, Corinne Fisher, Debajit Sen, Maria Leandro	Adolescent Rheumatology <b>'Secondary non-response to rituximab (B cell depletion) in childhood onset systemic lupus erythematosus'</b> Maria Leandro	Ian Giles
14 December	Respiratory <b>'Preinvasive lung cancer: From biology to treatment and beyond'</b> Adam Pennyquick	Rheumatology <b>'The UCLH HLH service'</b> Jessica Manson and Betty Gratton	Coziana Ciurtin
21 December 28 December 4 January	<b>Christmas Break</b>		
11 January	Immunology <b>'Checkpoints unchecked - CTLA4 insufficiency, search for a cure'</b> Thomas Fox	Nephrology <b>'Chopping up autoimmunity'</b> Professor Alan Salama	Venkat Reddy
18 January	Palliative Care <b>'On the alleviation of agony'</b> Dr Rowena Eason, SpR in Palliative Medicine and Mr Harith Akram, Consultant Neurosurgeon	BRC <b>'Making the first step in the right direction: pre-hospital assessment of acute stroke'</b> Robert Simster	Jonathan Ledermann
25 January	Bariatric Medicine & Surgery <b>'Endoscopic techniques for managing type 2 diabetes and obesity'</b> Dr Rehan Haidry	Cardiology <b>'Post-COVID cardiovascular disease- unlikely links between the pandemic and the heart'</b> Amitava Banerjee	Derek Yellon
8 February	Endocrinology <b>'Adrenal Insufficiency-patient safety first. National and UCLH strategies'</b> Helen Simpson		Anton Emmanuel
16 <sup>th</sup> February	<b>Special Grand Round</b> Addressing the NHS backlog - the perioperative care answer - Professor Ramani Moonesinghe		
22 February	Obstetrics & Gynaecology <b>'Synthetic mesh devices in gynaecology: what the women taught me'</b> Miss Sohler Elneil	Oncology <b>'The role of radiotherapy for malignant pleural mesothelioma and the HIT-MESO proton trial'</b> Crispin Hiley	Sam Janes
1 March	Microbiology <b>'Developing a penicillin allergy de-labelling service at UCLH'</b> Dr Abhi Das		Alastair O'Brien

8 March	Anaesthetics <b>'Awake Intubation Techniques in a Challenging Airway'</b> Amelia Carnachan & David Inglis	Dermatology <b>'Skin problems in immunocompromised patients'</b> Elizabeth Kulakov	David Katz
22 March	Audiovestibular Medicine <b>'Genomics and Audiovestibular Medicine: A journey of Discovery'</b> Roohi Shrivastava, Chrysa Spyridakou & Chung Chan	Haematology <b>'Can we avoid antigen escape as a mechanism of relapse following CAR T-cells for blood cancers?'</b> Dr Claire Roddie	Elaine Murphy
29 March	ICU <b>"INHALE – do rapid pathogen diagnostics make a difference?"</b> David Brealey	Orthopaedics - Hip and Knee <b>'3-D printed implants'</b> Harry Hothi	Hugh Montgomery
5 April	<b>Easter Holidays</b>		
12 April			
19 April	Adolescent Paediatrics <b>'Fatigue - Addisons disease? Developmentally appropriate care and transition'</b> Terry Segal & Helen Simpson	Psychiatry <b>'No Laughing Matter'</b> Dr Rebecca Long, Dr Rafael Gafoor, Dr Michelle Eskinazi	Glynn Lewis
26 April	Oral Medicine <b>'London matchgirls' strike, cancer therapy and the jawbones'</b> Stefano Fedele		Mahdad Noursadeghi
3 May	<b>Bank holiday</b>		
10 May	Nuclear Medicine <b>'When two worlds collide: Theranostics brings imaging and therapy together in new precision oncology applications'</b> Dr Dimitris Priftakis	Perinatal Medicine <b>'Undiagnosed diabetes – a silent killer'</b> Professor Dimitrios Siassakos	David Katz
17 May	<b>Special Grand Round</b>		
24 May	Radiology <b>'My patient has colon cancer. Will he/she develop metastases?'</b> Prof Steve Halligan and Prof Sue Mallett	Ophthalmology <b>'TCF4-mediated Fuchs endothelial corneal dystrophy: Insights into a common trinucleotide repeat-associated disease'</b> Alice Davidson	Stuart Taylor
31 May	<b>Bank holiday 29 May and half term</b>
