

Cleaning at the Department of Space and Climate Physics (Holmbury St Mary site)

Evening cleaning

There are two cleaning operatives who carry out cleaning of all areas across the site. They focus on daily waste removal, dust control of areas such as tables and worktops (where accessible). There are a few restrictions of places such as labs and workshops where they are unable to conduct any cleaning and where only the floor is looked at. The cleaners also vacuum the soft floors where required and mop hard floor areas daily.

Daytime cleaning

We have one cleaner who operates across the site. The cleaning schedule is as follows:

	Mon	Tue	Wed	Thur	Fri
AM	Clean toilets. Picking up rubbish. Vacuum mats and main staircase. Surface sanitizer in common areas. Look after external areas. Clean Ariel House. Check toilets.	Clean toilets. Picking up rubbish. Surface sanitizer in common areas. Look after external areas. Clean Ariel House. Check toilets.	Clean toilets. Picking up rubbish. Vacuum General Office.
