Child information sheet: Keeping safe from Coronavirus

During your visit to the MRI Scanner, we will be taking extra steps to help us all stay safe from Coronavirus. If you have visited us before, somethings might be a bit different from your last visit. Here are some important things we will do, and ask you to do too:

What we will ask you to do:

- **Let us know if you feel poorly** - we will ask you to answer some questions about how you are feeling. If you have a temperature, a cough or can’t smell or taste things, we will invite you back to take your brain pictures once you feel better.
- **Keep 2 metres away from people you meet** - we will help you with this by using markers on the floor.
- **Wash your hands** - we will give you hand sanitizer to clean your hands with when you arrive and when you leave, as well as whenever you would like to during your visit.
- **You don’t have to wear a mask or face covering**, but you can wear one if you like, except when playing games in the scanner - we can give you a mask if you don’t have one.

What we will do:

- **We will keep a bit more distance when talking to you** - at least 2 meters
- **Wear protective clothing** - we will always wear a mask and put an extra plastic visor like the one in the picture on top, if we ever need to come a bit closer to you, to help protect you.
- **Wash our hands regularly** - we will also wash our hands with hand sanitizer regularly during your visit.
- **Make sure everything is clean** - we will disinfect all rooms and things you may touch before you arrive and after you leave.
- **Keep your belongings safe and clean** - while you play the games, we will keep your things in a clean bag until you are finished.

Please circle ‘Yes’ or ‘No’ to answer these questions:
