

Linguistics Modules - Module Information Sheet

2021/22

1. General information

Module Code	PLIN0007	Title	Core issues in Linguistics				Credits	15
Module Tutor	Dr Alina Konradt		Contact	a.konradt@ucl.ac.uk				
Other tutor(s)	TBC							
Module available at the following levels								
Level 4 UG	X	Level 5 UG		Level 6 UG		Level 7 UG	Level 7 PG	
Module description								
The course aims to provide conceptual and theoretical foundations for studying linguistics and to help students develop appropriate academic skills.								
Prerequisites	None.							
Timetable	https://timetable.ucl.ac.uk/tt/createCustomTimet.do#							
Summary								
Lectures will include the following topics: Introducing language; linguistic universals (syntax); language, thought and semantic universals; sounds; experimental methods; brain and language; infant language acquisition; linguistic relativity; and language change. The academic skills component will include: Introduction and essay structure; tone, clarity and editing; referencing and plagiarism; writing and thinking critically; preparing for an essay; research skills; presentation skills; review; student presentations								
Information for students on other programmes and Affiliate/intercollegiate students:								
If you want to take this module, you should select it on Portico as usual. Any general queries about taking the module can be addressed to pals.lingteachingoffice@ucl.ac.uk								

2. Teaching

Teaching methods and tutorial/lab arrangements	
Lectures on linguistic are presented by experts on the topic of the lecture fortnightly throughout the year. The lectures are delivered asynchronously using pre-recorded materials which are supported by synchronous online teaching; some of these sessions may also be delivered in person in addition to the online/pre-recorded sessions. Further reading and discussion topics are provided, which should be utilised in the academic skills component. In the academic skills component, fortnightly lectures are delivered asynchronously using pre-recorded materials which are supported by synchronous online teaching; in addition, a number of these sessions may also be delivered in person. Lectures for this module are recorded via the UCL Lecturecast system, and a link to recordings will be made available via the Moodle page for this module. Please note that recordings can fail for a number of reasons.	
Communication	
The preferred means of communications is by email to the course coordinator. You can expect a response within 48 hours.	
Workload	
<ul style="list-style-type: none"> • 30 hours attendance • 72 hours private reading and other preparation • 60 hours revision and assessment • 8 hours of experimental participation 	
Core texts	n/a

Libraries and other resources: n/a
Additional information: n/a
Recording
Lectures for this module are recorded via the UCL Lecturecast system, and a link to recordings will be made available via the Moodle page for this module. Please note that recordings can fail for a number of reasons.

3. Assessment

<i>Level 4/5/6 undergraduate</i>		
Mode of assessment	Weight	Format
Coursework	10%	Written assessment, 200 words
Coursework	20%	Written summary, 700 words
Presentation slides	10%	To be submitted 1 week before presentations
Oral presentation	0%	n/a
Coursework	50%	1500-word essay
Moodle quizzes	10%	n/a
<i>Other assessment information</i>	You must also fulfil at least 5 hours of experimental participation to pass this module.	

4. Types of feedback

Types of feedback students on this module can expect to receive	This type of feedback is provided (X)
Generic tutor feedback	
Oral feedback is given to the whole class (eg this may be about coursework, an in-class or online task)	X
Electronic feedback to the whole group (eg see oral feedback above)	
Printed feedback to the whole group (eg answers to an exercise done in class, feedback relating to general performance on coursework or a task etc)	
Coverage of topics in class which have been raised by members of the class (eg in areas where students ask for clarification/elaboration, these topics are addressed in class)	X
Electronic responses to the whole group via the VLE or via email (eg sending replies to individual queries to the whole group)	X
<i>Other generic tutor feedback (please give details)</i>	
Automated feedback	
Tests / quizzes within VLE These are tests which do not count towards the module mark, but serve to inform students of how well they are understanding materials taught.	
Personal Response Systems used within class (eg to test that students understand a concept, to survey which topics students would like elaborated)	
<i>Other automated feedback (please give details)</i>	
Specific, targeted tutor feedback	
Oral responses within class (eg demonstrators talking to students in lab, stats and computing classes)	X
Oral responses outside class (eg students are invited to telephone or meet with module staff with individual queries regarding topics taught)	X
Electronic responses to queries from individual students are provided (as above)	
Summative comments on coursework (eg handwritten feedback at the end of a written assessment which counts towards the module mark)	X
On-script comments in the body of individual summative coursework	X
Indication of achievement against set marking criteria (eg for an individual essay or a lab report)	X
Feedback using a standard feedback form (eg essay feedback form or lab marking forms)	X

Oral feedback on coursework talking to individual students about their coursework on the phone or in person, this could be summative points or specific comments on parts of the essay / lab report / project	
Electronic feedback on coursework This could be via email or on a VLE (eg using Gradebook on Moodle)	X
<i>Other specific, targeted tutor feedback (please give details)</i>	
Feedback from people other than module staff	
Peer feedback: fellow students commenting on/marking each other's work, or working together on a task (eg group work providing students with feedback on their ideas/understanding)	X
Self-feedback (eg students evaluating their own coursework, worksheet answers, etc)	
Feedback from seminar tutors Students may receive feedback on their understanding of topics/answers to queries/feedback on coursework from their tutor (eg poster, Research Project presentations etc)	
<i>Other feedback from those not teaching module (please give details)</i>	
Feedback related to examinations	
A mock examination is given to help students prepare for the final exam	
Marks for the previous year provided online , with a breakdown of marks for individual questions	
Samples of real student work , such as coursework, exam essays, and projects from previous students on the module.	X
<i>Other exam-related feedback (please give details)</i>	

5. Specific transferable skills (categorised into skill areas)

Transferable students on this module can expect to develop	
Academic	
Learning Actively - Able to approach learning as an active agent, taking responsibility for the process and outcomes	X
Analysing Data - Able to filter and organise information to develop an argument and work toward a conclusion, applying numerical analysis where appropriate	
Thinking Critically - Able to consider claims made against the evidence available and to develop one's own view systematically	X
Using Sources - Able to locate and use appropriate books, journals, websites and other sources to gather relevant data	X
Solving Problems - Able to use systematic approaches to overcome difficulties in producing a desired outcome	
Managing Projects - Able to plan a coordinated set of tasks and enact over time to produce a substantial result	X
Self-management	
Reflecting on Learning - Able to review dispassionately one's approaches to learning and the outcomes and progressively improve the process.	
Managing Time - Able to prioritise tasks and commitments to achieve optimum results in a designated timeframe	X
Being Creative / Innovative - Able to generate and apply original approaches to tasks and problems and produce improved outcomes	
Assessing Oneself - Able to identify one's own strengths, weaknesses, progress made and action needed to improve effectiveness	X
Being Independent - Able to work at own initiative with minimal supervision, taking responsibility for action and outcomes	X
Managing Resources - Able to allocate and conserve funds and other resources on a day to day basis and to support projects	
Communication	
Writing - Able to communicate in textual forms (essays, reports, journal entries, web pages etc.) in an appropriate style with a clear narrative flow	X
Listening - Able to hear and appreciate the content, background and purpose of what someone else is communicating to you	X

Using Information Technology - Able to use digital technology for managing information and to mediate communication for learning and other purposes	X
Presenting - Able to speak to an audience, using visual aids as appropriate and respond to questions	X
Communicating globally - Able to understand and manage factors affecting communication across cultures, including learning other languages	
Planning and making decisions - Able to identify steps needed to work towards goals and communicate them, including means of monitoring progress	
Working with others	
Working in teams - Able to co-operate with others, to contribute your strengths and learn from theirs with a common purpose	X
Negotiating - Able to respect the needs and interests of others when they differ from your own and to find common ground	X
Leading - Able to galvanise a team into cooperative action, to manage, guide or facilitate a group to maximise success	
Understanding others - Able to recognise the variety of ways in which people can think and approach tasks, adjusting your own to suit	X
Assessing self and peers - Able to assess your own performance objectively and to give and receive constructive feedback with others	X
Managing change - Able to adapt to changing circumstances and maintain focus on the group's declared goals	X
Other transferable skills developed in this module
