

Linguistics Modules - Module Information Sheet

2022/23

1. General information

Module Code	PLIN	N0011	Title	Introduction to Sem	Credits	15			
Module Tutor	Rich	nard Brel	neny		Contact	r.breheny@	@ucl.ac.uk		
Other tutor(s)									
Module available at the following levels									
Level 4 UG	Х	Level 5 L	JG	Level 6 UG	L	evel 7 UG	Level	7 PG	

Module description

This course is an introduction to the study of pragmatics. It covers the nature of communication, the relation between language and communication, and some recent approaches to the study of communication.

Prerequisites	None
Timetable	https://timetable.ucl.ac.uk/tt/moduleTimet.do?firstReq=Y&moduleId=PLIN0011

Week by week summary

Lecture 1: Introduction - The Domain of Pragmatics

Lecture 2: Inferential Communication

Lecture 3: Pragmatic Principles – Grice's Theory

Lectures 4&5: Neo-Gricean and Rule-based Modifications

Lectures 6 & 7: Relevance Theory

Lecture 8: Pragmatics of explicit content

Lectures 9: Irony Lecture 10: Metaphor

Information for students on other programmes and Affiliate/intercollegiate students:

If you want to take this module, you should select it on Portico as usual. Any general queries about taking the module can be addressed to Lisa Cagnacci: enquiries-linguistics@pals.ucl.ac.uk.

2. Teaching

Teaching methods and tutorial/lab arrangements

Lectures are on a Tuesday at 2pm for one hour. This is followed by a one hour backup at 3pm, 4pm or 5pm. The size of each backup is around 10 students.

Communication

Students should always first consider consulting the Moodle page for information, and posting questions on the Moodle forum of the course. For more specific or personal requests the lecturer can be emailed

Workload

In addition to attendance to lectures and tutorials, students are expected to spend roughly 160 hours in private reading, assignments and exam revisions.

survey which topics students would like elaborated)

Recording

Other automated feedback (please give details)	
Specific, targeted tutor feedback	
Oral responses within class (eg demonstrators talking to students in lab, stats and computing classes)	X
Oral responses outside class (eg students are invited to telephone or meet with module staff with	
individual queries regarding topics taught)	
Electronic responses to queries from individual students are provided (as above)	Χ
Summative comments on coursework (eg handwritten feedback at the end of a written assessment	Х
which counts towards the module mark)	^
On-script comments in the body of individual summative coursework	Χ
Indication of achievement against set marking criteria (eg for an individual essay or a lab report)	
Feedback using a standard feedback form (eg essay feedback form or lab marking forms)	
Oral feedback on coursework talking to individual students about their coursework on the phone or in	
person, this could be summative points or specific comments on parts of the essay / lab report /	
project	
Electronic feedback on coursework This could be via email or on a VLE (eg using Gradebook on	
Moodle)	
Other specific, targeted tutor feedback (please give details)	
Feedback from people other than module staff	
Peer feedback: fellow students commenting on/marking each other's work, or working together on a	Х
task (eg group work providing students with feedback on their ideas/understanding)	^
Self-feedback (eg students evaluating their own coursework, worksheet answers, etc)	
Feedback from seminar tutors Students may receive feedback on their understanding of	
topics/answers to queries/feedback on coursework from their tutor (eg poster, Research Project	
presentations etc)	
Other feedback from those not teaching module (please give details)	
Feedback related to examinations	
A mock examination is given to help students prepare for the final exam	
Marks for the previous year provided online, with a breakdown of marks for individual questions	
Samples of real student work, such as coursework, exam essays, and projects from previous students	
on the module.	

5. Specific transferable skills (categorised into skill areas)

Transferable students on this module can expect to develop			
Academic			
Learning Actively - Able to approach learning as an active agent, taking responsibility for the process and	Х		
outcomes	_ ^		
Analysing Data - Able to filter and organise information to develop an argument and work toward a			
conclusion, applying numerical analysis where appropriate			
Thinking Critically - Able to consider claims made against the evidence available and to develop one's own	Х		
view systematically	_ ^		
Using Sources - Able to locate and use appropriate books, journals, websites and other sources to gather	Х		
relevant data	^_		
Solving Problems - Able to use systematic approaches to overcome difficulties in producing a desired outcome			
Managing Projects - Able to plan a coordinated set of tasks and enact over time to produce a substantial			
result			
Self-management			
Reflecting on Learning - Able to review dispassionately one's approaches to learning and the outcomes and	Х		
progressively improve the process.	^		
Managing Time - Able to prioritise tasks and commitments to achieve optimum results in a designated			
timeframe	Х		

Being Creative / Innovative - Able to generate and apply original approaches to tasks and problems and produce improved outcomes	Х
Assessing Oneself - Able to identify one's own strengths, weaknesses, progress made and action needed to	
improve effectiveness	
Being Independent - Able to work at own initiative with minimal supervision, taking responsibility for action and outcomes	Х
Managing Resources - Able to allocate and conserve funds and other resources on a day to day basis and to	
support projects	
Communication	
Writing - Able to communicate in textual forms (essays, reports, journal entries, web pages etc.) in an appropriate style with a clear narrative flow	Х
Listening - Able to hear and appreciate the content, background and purpose of what someone else is communicating to you	Х
Using Information Technology - Able to use digital technology for managing information and to mediate communication for learning and other purposes	Х
Presenting - Able to speak to an audience, using visual aids as appropriate and respond to questions	
Communicating globally - Able to understand and manage factors affecting communication across cultures,	
including learning other languages	
Planning and making decisions - Able to identify steps needed to work towards goals and communicate them,	
including means of monitoring progress	
Working with others	
Working in teams - Able to co-operate with others, to contribute your strengths and learn from theirs with a common purpose	
Negotiating - Able to respect the needs and interests of others when they differ from your own and to find common ground	
Leading - Able to galvanise a team into cooperative action, to manage, guide or facilitate a group to maximise success	
Understanding others - Able to recognise the variety of ways in which people can think and approach tasks, adjusting your own to suit	Х
Assessing self and peers - Able to assess your own performance objectively and to give and receive constructive feedback with others	Х
Managing change - Able to adapt to changing circumstances and maintain focus on the group's declared goals	
ividing finding - Abile to adapt to changing circumstances and maintain rocus on the group's deciated goals. I
