Module available at t				1				· · · · ·		n
Level 4 UG	Level 5 l	JG		Level 6 UG	Х	Lev	vel 7 UG	Leve	l 7 PG	Х
Module description										
Advanced Semantic Theory provides students with the background and skills necessary to engage with current research in semantics in the field of theoretical linguistics. In doing so, foundational questions are addressed such as i) how to evaluate and test theories of semantics, ii) the relationship between semantics and other aspects of linguistic competence, iii) the relationship and difference between theory and formalism.										
Prerequisites	PLIN0001 ar	nd PLINC	009							
Timetable				uk/tt/moduleTim	et.do?	firstF	Rea=Y&modu	leid=PLINOC	20	
Week by week summ										
Week 1: Quantification in Natural Language vs. Predicate Logic Week 2: Generalized Quantifier Theory 1 Week 3: Generalized Quantifier Theory 2 Week 4: Generalized Quantifier Theory 3 Week 5: Restrictions on Quantifier Scope Week 6: Plural Predication Week 7: Plural Nouns Week 7: Plural Nouns Week 8: Mass Nouns and Group Nouns Week 9: Distributivity Week 10: Cumulativity										
Information for stude	ents on other	program	nmes	and Affiliate/in	tercolle	egiat	e students:			
If you want to take this module, you should select it on Portico as usual. Any general queries about taking the module can be addressed to Alexa Richardson: <u>enquiries-linguistics@pals.ucl.ac.uk</u> .										
2. Teaching										
Teaching methods and tutorial/lab arrangements										
Each lecture is 2 hours. There is no backup. Communication										

The assignments and final essay must be submitted on Moodle. All the course material will be available there as well. For any other things, email the lecturer.

Workload

Lectures: 20 hrs Private reading: 65 hrs Weekly homework assignment: 65 hrs Total = 150 hrs

Core texts

Libraries and other resources

All the course material, including the lecture notes, in-class exercises, and weekly problem sets will be uploaded to the course Moodle page.

Additional information

Late work and extenuating circumstances

Any requests for extensions to deadlines, or for extenuating circumstances to be taken into consideration by examiners, should be made by completing the relevant form. No extensions or special consideration can be given outside of this process, and there is a grading penalty for late submission of coursework.

Recording

Lectures and other classes for this module should not be recorded. If you have a Statement of Reasonable Adjustment (SoRA) from UCL Disability Services recommending that you record classes, you are welcome to do so provided you abide by the conditions specified in the SoRA.

3. Assessment

Level 4/5/6 undergraduate				
Mode of assessment	Weight	Format		
Exam (include duration)				
Coursework (include word count)	30%	Weekly problem sets		
(Add more if needed)	70%	Essay		
(Add more if needed)				
Other assessment information				

Level 7 postgraduate				
Mode of assessment	Weight	Format		
Exam				
Coursework	30%	Weekly problem sets		
(Add more if needed)	70%	Essay		
(Add more if needed)				
Other assessment information				

4. Types of feedback

Types of feedback students on this module can expect to receive	This type of feedback is provided (X)		
Generic tutor feedback			
Oral feedback is given to the whole class (eg this may be about coursework, an in-class or online task)	Х		
Electronic feedback to the whole group (eg see oral feedback above)	Х		
Printed feedback to the whole group (eg answers to an exercise done in class, feedback relating to			
general performance on coursework or a task etc)			
Coverage of topics in class which have been raised by members of the class (eg in areas where			
students ask for clarification/elaboration, these topics are addressed in class)	Х		
Electronic responses to the whole group via the VLE or via email (eg sending replies to individual			
queries to the whole group)	Х		
Other generic tutor feedback (please give details)			

Automated feedback					
Tests / quizzes within VLE These are tests which do not count towards the module mark, but serve to					
inform students of how well they are understanding materials taught.					
Personal Response Systems used within class (eg to test that students understand a concept, to					
survey which topics students would like elaborated)					
Other automated feedback (please give details)					
Specific, targeted tutor feedback					
Oral responses within class (eg demonstrators talking to students in lab, stats and computing classes)					
Oral responses outside class (eg students are invited to telephone or meet with module staff with	х				
ndividual queries regarding topics taught)					
Electronic responses to queries from individual students are provided (as above)					
Summative comments on coursework (eg handwritten feedback at the end of a written assessment					
which counts towards the module mark)					
On-script comments in the body of individual summative coursework	Х				
Indication of achievement against set marking criteria (eg for an individual essay or a lab report)	X				
Feedback using a standard feedback form (eg essay feedback form or lab marking forms)	~				
Oral feedback on coursework talking to individual students about their coursework on the phone or in					
	х				
person, this could be summative points or specific comments on parts of the essay / lab report / project	^				
Electronic feedback on coursework This could be via email or on a VLE (eg using Gradebook on Maadla)	Х				
Moodle)					
Other specific, targeted tutor feedback (please give details)					
Feedback from a cute other weeks a staff					
Feedback from people other than module staff					
Peer feedback: fellow students commenting on/marking each other's work, or working together on a					
task (eg group work providing students with feedback on their ideas/understanding)					
Self-feedback (eg students evaluating their own coursework, worksheet answers, etc)	Х				
Feedback from seminar tutors Students may receive feedback on their understanding of					
topics/answers to queries/feedback on coursework from their tutor (eg poster, Research Project					
presentations etc)					
Other feedback from those not teaching module (please give details)					
Feedback related to examinations					
A mock examination is given to help students prepare for the final exam					
Marks for the previous year provided online, with a breakdown of marks for individual questions					
Samples of real student work, such as coursework, exam essays, and projects from previous students					
on the module.					
Other exam-related feedback (please give details)					
5. Specific transferable skills (categorised into skill areas)					
Transferable students on this module can expect to develop					
Academic					
Learning Actively - Able to approach learning as an active agent, taking responsibility for the process and	x				
outcomes	^				
Analysing Data - Able to filter and organise information to develop an argument and work toward a					
conclusion, applying numerical analysis where appropriate					
Thinking Critically - Able to consider claims made against the evidence available and to develop one's own					
view systematically					
Using Sources - Able to locate and use appropriate books, journals, websites and other sources to gather	х				
relevant data	^				

Solving Problems - Able to use systematic approaches to overcome difficulties in producing a desired outcome Х Managing Projects - Able to plan a coordinated set of tasks and enact over time to produce a substantial result

Self-management

Reflecting on Learning - Able to review dispassionately one's approaches to learning and the outcomes and				
progressively improve the process.				
Managing Time - Able to prioritise tasks and commitments to achieve optimum results in a designated				
timeframe	Х			
Being Creative / Innovative - Able to generate and apply original approaches to tasks and problems and	х			
produce improved outcomes	^			
Assessing Oneself - Able to identify one's own strengths, weaknesses, progress made and action needed to	х			
improve effectiveness	^			
Being Independent - Able to work at own initiative with minimal supervision, taking responsibility for action	х			
and outcomes	^			
Managing Resources - Able to allocate and conserve funds and other resources on a day to day basis and to				
support projects				
Communication				
Writing - Able to communicate in textual forms (essays, reports, journal entries, web pages etc.) in an	х			
appropriate style with a clear narrative flow	^			
Listening - Able to hear and appreciate the content, background and purpose of what someone else is				
communicating to you				
Using Information Technology - Able to use digital technology for managing information and to mediate				
communication for learning and other purposes				
Presenting - Able to speak to an audience, using visual aids as appropriate and respond to questions				
Communicating globally - Able to understand and manage factors affecting communication across cultures,				
including learning other languages				
Planning and making decisions - Able to identify steps needed to work towards goals and communicate them,				
including means of monitoring progress				
Working with others				
Working in teams - Able to co-operate with others, to contribute your strengths and learn from theirs with a				
common purpose				
Negotiating - Able to respect the needs and interests of others when they differ from your own and to find				
common ground				
Leading - Able to galvanise a team into cooperative action, to manage, guide or facilitate a group to maximise				
success				
Understanding others - Able to recognise the variety of ways in which people can think and approach tasks,				
adjusting your own to suit				
Assessing self and peers - Able to assess your own performance objectively and to give and receive				
constructive feedback with others				
Managing change - Able to adapt to changing circumstances and maintain focus on the group's declared goals				
Other transferable skills developed in this module
